## PROFESSIONAL EXPERIENCE — 3.5 YEARS

**Software Engineer — HCL Technologies, Chennai, India** Sep 2021 – Jan 2025

- Designed and implemented **Power BI dashboards** to monitor marketing channel performance, campaign ROI, and lead-to-opportunity conversion rates for a B2B SaaS client, delivering actionable insights to marketing leadership.
- Analyzed marketing campaign effectiveness by comparing channel performance on a like-for-like basis, identifying optimization opportunities that contributed to a **15% improvement in marketing efficiency**.
- Developed and maintained **data quality standards** and governance processes across marketing technology platforms including CRM and marketing automation systems, ensuring consistency in campaign taxonomies and regional hierarchies.
- Automated recurring reporting processes using **Python scripting**, reducing manual data preparation tasks and spreadsheet reliance, which improved team efficiency by approximately **20%**.
- Extracted, integrated, and validated data from multiple marketing systems such as web analytics, advertising platforms, and CRM, ensuring data accuracy for reporting and analysis.
- Collaborated with IT teams to support reporting requirements, data models, and system integrations, facilitating smoother data flow and enhancing the marketing technology ecosystem.
- Refactored inefficient relational database queries and implemented strategic indexing across a **PostgreSQL** data warehouse, reducing analytical report execution times by **34%**.

## SKILLS

**BI & Analytics Tools** – Power BI, Tableau, DAX, Power Query, Qlik Sense

**Data Analysis & Modeling** – Statistical Analysis, Regression, Hypothesis Testing, Time-Series Analysis, A/B Testing, Data Warehousing, Data Modeling

**Programming & Scripting** – Python, R, SQL, pandas, NumPy, scikit-learn

**Cloud & Infrastructure** – AWS (EC2, S3, Lambda, CloudWatch), Docker

**Databases** – PostgreSQL, MySQL, Oracle

**Backend Development** – Java, Spring Boot, REST APIs, Flask, FastAPI

**Methodologies & Tools** – Agile, Scrum, Jira, Confluence, Git, Jenkins, Splunk, Dynatrace

## PROJECTS

### Marketing Performance Analytics Dashboard

- Developed a comprehensive **Power BI dashboard** to visualize key marketing performance indicators including campaign spend, lead generation, and conversion rates for a hypothetical B2B SaaS company.
- Engineered **Python scripts** to automate data extraction and transformation from simulated CRM and web analytics platforms, feeding directly into the Power BI data model.
- Designed and implemented **DAX measures** to calculate campaign ROI and marketing-sourced pipeline, providing stakeholders with clear, actionable insights into marketing effectiveness.

### Customer Data Integration & Reporting Automation

- Built a **Python-based ETL pipeline** to integrate customer data from disparate sources (simulated ERP and marketing automation systems), ensuring data consistency and quality.
- Created automated reporting routines using **SQL queries** against a PostgreSQL database to generate weekly performance summaries, reducing manual reporting effort by **~40%**.
- Collaborated with simulated business stakeholders to define reporting requirements and validate data accuracy, ensuring the generated reports met their analytical needs.

## EDUCATION

**M.Sc. Data Analytics — National College of Ireland, Dublin** Feb 2026

**B.E. Computer Science — SNS College of Technology, Coimbatore, India** 2021

## CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
