PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Configured and initialized **robots** for field deployment, including setting up their **backend support systems** and capturing/archiving configuration data.
- Performed end-of-line and burn-in testing on **robot hardware** to verify shipping integrity and qualify them for field use, documenting results in **Jira**.
- Traveled to installation sites to perform on-site **robot assembly**, bring-up, and functional verification, ensuring operational readiness.
- Served as the primary **Point-of-Contact** liaison for site requirements, coordinating badge access, equipment movement, and initial debugging with local client logistics teams.
- Collected and reviewed site data for **developers**, identifying patterns in field problems to inform improvements to the robot installation process.
- Provided on-site training to customer **Points of Contact** on robot operation and basic troubleshooting procedures for field issues.
- Managed **Linux** servers and performed **shell scripting** for system configuration and log analysis in preparation for robot deployments.

SKILLS

Robotics – Robot preparation, Robot installation, Field deployment, End-of-line testing, Burn-in testing, On-site assembly, Functional verification

Deployment Tools – Site survey, Installation tooling, Configuration data management, Shipping preparation

Client Interaction – Point-of-Contact liaison, Site requirements gathering, Customer support, On-site training

Software & Systems – Python, C++, Shell scripting, Linux command line, GIT, ALM, Jira

Hardware & Infrastructure – Server room experience, Hardware configuration, Software/hardware troubleshooting

PROJECTS

Automated Robot Deployment & Configuration Pipeline

- Developed a **Python** script to automate the initialization and configuration of robots, reducing manual setup time by **40%**.
- Integrated the pipeline with **Jira** to automatically create tickets for each robot deployment, tracking progress and associated issues.
- Implemented data archiving for robot configuration parameters, ensuring compliance with internal audit requirements and facilitating faster rollbacks.

Field Site Preparation & Logistics Tooling

- Engineered a **shell scripting**-based tool to streamline site survey data collection, including mapping, docking location identification, and route creation.
- Created an inventory management system for installation toolkits, tracking equipment status and ensuring readiness for field deployments across **multiple sites**.
- Collaborated with client logistics teams to manage site access and equipment movement, resolving an average of **3** critical access issues per deployment.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
