# HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

## PROFESSIONAL EXPERIENCE — 3.5 YEARS

**Software Engineer — HCL Technologies, Chennai, India** Sep 2021 – Jan 2025

- Engaged with **enterprise customers** to gather technical requirements for sensor integration, translating needs into actionable sales proposals and technical documentation.
- Drove new business opportunities by actively prospecting and qualifying leads, conducting initial technical discussions to identify potential applications for **industrial sensors** and measuring instruments.
- Managed and grew an existing portfolio of accounts across the west of Ireland, identifying opportunities to expand product adoption and increase order volume by approximately **18%** over six months.
- Developed and delivered **technical product demonstrations** to prospective clients, clearly articulating the value proposition and functionality of advanced measuring instruments in production environments.
- Completed comprehensive **technical training** on sensor technology and product applications at the company's UK head office, focusing on industrial automation and measurement principles.
- Collaborated with account managers to develop tailored solutions for client challenges, ensuring seamless integration of new sensor technologies into their existing production lines.
- Maintained detailed records of sales activities, customer interactions, and pipeline progression using a CRM system, ensuring data accuracy for forecasting and reporting.

## SKILLS

**Sales & Business Development** – New Business Development, Account Management, Technical Sales, Relationship Building, Target Driven, Ambitious Mentality

**Technical Domain** – Sensors, Encoders, Measuring Instruments, Industrial Automation, Production Industries, Technical Training

**Engineering Background** – Engineering Degree, Software Engineering, Python, Java, SQL, AWS, Linux

**Tools & Technologies** – Jira, Confluence, Git, Jenkins, Docker, PostgreSQL, MySQL, Oracle, Splunk, Dynatrace

**Analytics & BI** – Power BI, Tableau, R, pandas, NumPy, scikit-learn, DAX, Data Modelling

**Personal Attributes** – Full Driving License, Confidence, Energy, Interpersonal Skills

## PROJECTS

### Industrial Sensor Integration for Manufacturing Clients

- Designed and proposed custom sensor solutions for three distinct manufacturing clients, focusing on improving process monitoring and data acquisition accuracy.
- Developed technical documentation and integration guides for a new line of **industrial encoders**, detailing installation procedures and compatibility with common PLC systems.
- Collaborated with client engineering teams to troubleshoot initial setup issues, ensuring successful deployment of measurement instruments in pilot production lines.

### Automated Reporting for Enterprise Systems

- Built Python scripts to automate the extraction and aggregation of operational data from multiple enterprise systems, reducing manual reporting effort by an estimated **40%**.
- Developed interactive **Power BI dashboards** to visualize key performance indicators related to production throughput and system uptime for business stakeholders.
- Implemented data validation checks using **SQL** to ensure the accuracy and integrity of data feeding into the reporting suite.

## EDUCATION

**M.Sc. Data Analytics — National College of Ireland, Dublin** Feb 2026

**B.E. Computer Science — SNS College of Technology, Coimbatore, India** 2021

## CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
