HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Developed and maintained **Java Spring Boot** microservices, designing and implementing **REST APIs** for inter-service communication and data exchange, processing approximately **1,500 requests per minute** during peak loads.
- Managed and optimized relational database interactions using **Hibernate** and **JPA**, implementing efficient query strategies and schema migrations for an enterprise backend system that supported over **10 distinct modules**.
- Wrote comprehensive unit and integration tests using **JUnit** and **Mockito** for critical Java components, achieving over **90% code coverage** for new feature development and significantly reducing post-deployment defects.
- Collaborated with cross-functional teams to define technical requirements and estimate effort for new feature development within an **Agile Scrum** framework, participating in daily stand-ups, sprint planning, and retrospectives.
- Contributed to code reviews and mentored junior engineers on best practices in **Java** development, object-oriented design principles, and effective debugging techniques.
- Containerized backend services using **Docker** and managed deployment configurations, ensuring consistent environments across development, staging, and production through basic **Kubernetes** orchestration.
- Automated routine data extraction and reporting tasks using **Python** scripting, reducing manual effort by an estimated **15 hours per week** for the operations analysis team.

SKILLS

Programming Languages – Java, Python, SQL, R

Frameworks & Libraries – Spring Boot, Hibernate, JPA, JUnit, Mockito, pandas, NumPy, scikit-learn, Flask, FastAPI

Databases – PostgreSQL, MySQL, Oracle

Cloud & DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, Kubernetes, Jenkins, Git

Tools & Methodologies – Jira, Confluence, Agile, Scrum, Splunk, Dynatrace

Business Intelligence – Power BI, Tableau, DAX, Power Query

PROJECTS

Enterprise Backend System Enhancement (HCL Technologies)

- Refactored core business logic in **Java Spring Boot** to improve performance, handling transaction processing for a financial operations dashboard that supported **5 distinct client segments**.
- Implemented data persistence layers using **JPA** and **Hibernate**, optimizing database schemas in **PostgreSQL** to reduce average query times by **30%** for key reporting functions.
- Developed and integrated **RESTful APIs** to enable data sharing between the primary backend and auxiliary reporting services, facilitating near real-time operational insights.

Automated Reporting and Data Pipeline (HCL Technologies)

- Engineered **Python** scripts to automate the extraction, transformation, and loading (ETL) of data from multiple sources into a central data warehouse for scheduled reporting.
- Developed data validation checks within the **Python** pipeline to ensure data integrity, identifying and flagging approximately **50-70 data anomalies** per processing cycle.
- Scheduled and monitored data pipeline execution using **cron jobs** and basic shell scripting on **Linux** servers, ensuring timely delivery of daily operational reports.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
