HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Monitored and controlled energy assets remotely using **SCADA systems** to ensure maximum operational efficiency and compliance with licence and permit requirements.
- Managed operational events and unforeseen issues, escalating as necessary to minimise impact and initiating investigations for continuous improvement.
- Provided clear and concise communications to **internal and external stakeholders** regarding asset status and operational performance.
- Maintained accurate records of all tasks undertaken, ensuring **routine operations** were completed in a timely manner and adherence to SLA targets.
- Collaborated with cross-functional teams including Site Operations, Asset Development, and Trading to provide **technical advice** and support business growth.
- Participated in project teams to implement changes and improvements within the operations environment, contributing to the development of a **zero-harm culture**.
- Ensured comprehensive and thorough handover between shift teams, maintaining continuity of safe operations and sharing knowledge of ongoing work activities.

SKILLS

Operations & Monitoring – Energy Assets, SCADA systems, Remote Monitoring, Shift Operations, Standby Rota, Process Environment, Control Rooms

Data Analysis & Reporting – Data Analytical Skills, PI Systems, Power BI, Excel, Large Datasets, Performance Patterns, Asset Availability

Compliance & Safety – REMIT, Permit & License Compliance, Safety Culture, Environmental Culture, Continuous Improvement, Company Policies

Communication & Stakeholder Management – Stakeholder Management, Professional Communication, Concise Communications, Internal Business Units, External Stakeholders

Technical Skills – Electrical, Controls, Systems Engineering, Computer Science, Python Scripting, SQL, Java Spring Boot, AWS, Docker, Linux

PROJECTS

Energy Asset Monitoring and Control System

- Developed and implemented a system for **remote monitoring** of critical energy assets, integrating with **SCADA** interfaces to track key operational parameters.
- Engineered data pipelines using **Python** to ingest and process telemetry data, enabling the generation of **performance reports** detailing asset availability and efficiency patterns.
- Designed and maintained **operational dashboards** in **Power BI** to visualise asset status and alert on deviations from expected performance, supporting timely intervention by shift teams.

Shift Operations Process Improvement Initiative

- Analyzed existing shift handover procedures and identified areas for improvement, contributing to a proposal that enhanced **operational continuity** and knowledge sharing between teams.
- Documented new **standard operating procedures** for event management and escalation, aiming to reduce response times and improve the accuracy of incident reporting.
- Collaborated with **operations and compliance teams** to ensure all documentation and reporting met regulatory requirements and **SLA** commitments.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
