PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Configured and documented **MES system master data** and workflows for a pharmaceutical client, ensuring alignment with GxP regulations.
- Developed and executed **MBR/Recipe test protocols** based on GxP requirements, validating system functionality against business process designs.
- Authored and revised **Standard Operating Procedures (SOPs)** for MES system usage, facilitating end-user adoption and site procedure improvements.
- Provided technical training and post-implementation support to **MBR/Recipe end users**, troubleshooting issues and enhancing operational efficiency.
- Collaborated with cross-functional stakeholders including business analysts and operations teams to gather requirements for MES system configurations and design review workshops.
- Managed change control processes for system updates and configurations, coordinating User Acceptance Testing (UAT) and post-go-live support across interconnected enterprise systems.
- Containerized Java Spring Boot applications using **Docker** and deployed them to **AWS EC2** instances, managing CI/CD pipelines with **Jenkins**.

SKILLS

MES Systems – Emerson Syncade, MBR Design, Recipe Design, Master Data Configuration, Validation

Life Sciences – GxP Manufacturing, Pharmaceutical Industry, Regulatory Compliance, SOP Authoring

Software Development – Java, Spring Boot, REST APIs, Hibernate, JPA, JUnit, Docker, Jenkins, Git

Data & Analytics – SQL, PostgreSQL, Python scripting, Data Pipelines, Power BI, Tableau, DAX

Cloud Platforms – AWS (EC2, S3, Lambda, CloudWatch)

Project Management – Agile Methodologies, Scrum Ceremonies, Stakeholder Management, UAT Coordination, Change Management

PROJECTS

MES Implementation for Pharmaceutical Operations

- Designed and implemented Master Batch Records (MBR) and recipe configurations within a MES platform for a global pharmaceutical client, directly addressing GxP compliance requirements.
- Developed detailed test protocols for MBR/Recipe functionality, executing validation scripts and documenting results to ensure adherence to strict regulatory standards.
- Facilitated design review workshops with client business process owners and technical teams, translating operational requirements into system configurations and technical specifications.

Automated Batch Reporting and Data Validation

- Developed Python scripts to automate the generation of daily operational reports from a financial services dashboard, reducing manual effort by approximately 6 hours per week.
- Implemented data validation checks using SQL queries across PostgreSQL and Oracle databases to ensure data integrity for critical transaction monitoring workflows before report generation.
- Containerized the reporting script and its dependencies using Docker, enabling consistent execution across development and production environments.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
