PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Managed relationships with key fund platforms and data providers, coordinating fund onboarding and ensuring data accuracy for a portfolio of **45+ investment funds**.
- Produced, validated, and maintained fund data including performance, fees, and ESG characteristics across distribution channels, performing **quality assurance reviews** to resolve discrepancies with internal and external stakeholders.
- Supported the publication and validation of fund factsheets and regulatory disclosures, ensuring consistency and accuracy for **multiple product lines**.
- Generated reporting and analysis on platform assets, fund flows, and sales activity, contributing to the evaluation of new platform opportunities and digital distribution channels.
- Assisted in assessing new share classes and platform-specific solutions, evaluating the commercial and operational feasibility of distribution initiatives.
- Maintained adherence to firm policies and compliance standards, ensuring accurate record keeping for platform interactions and fund data submissions.
- Developed Python scripts to automate the generation of platform data extracts, reducing manual effort by approximately **15 hours per week** and improving data delivery timeliness.

SKILLS

Platform & Distribution Support – Fund platforms, Third-party distributors, Pension platforms, Data providers, Platform due diligence, Fund onboarding, Relationship management

Fund Data Management – Fund data, Performance data, Fees, Share class information, Fund characteristics, ESG data, Regulatory disclosures, Facts sheets, KIDs/KIIDs, Sustainability disclosures

Distribution & Asset Growth – Platform assets, Fund flows, Sales activity, Distribution trends, Digital distribution channels

Financial Services & Analytics – Investment funds, Fund operations, Fund distribution, Intermediary distribution, UCITS funds, Morningstar Direct, FE Fundinfo, Bloomberg, Microsoft Excel, PowerPoint

Technical Skills – Python, SQL, Power BI, Data validation, Reporting, ETL, Data analysis

PROJECTS

Platform Fund Data Harmonization Initiative

- Engineered a Python-based data pipeline to ingest and harmonize fund data from disparate sources (e.g., internal databases, vendor feeds) into a consistent format for platform distribution.
- Implemented data validation checks using pandas and SQL queries to identify and flag discrepancies in fund characteristics and performance metrics, reducing data errors by an estimated **20%**.
- Developed automated reporting modules in Python to track data submission status and identify bottlenecks in the publication workflow for **over 50 funds**.

MSc Applied Data Analytics - Distribution Channel Performance Dashboard

- Designed and built an interactive Power BI dashboard to visualize fund distribution performance across key platforms, integrating data from multiple sources via Power Query.
- Created DAX measures to analyze fund flows, AUM growth, and sales activity by channel and product type, providing actionable insights to the distribution team.
- Presented the completed dashboard and key findings to MSc faculty and peers, demonstrating an understanding of business intelligence principles and data visualization best practices.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
