PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Executed and documented computer system validation lifecycle activities for **manufacturing, laboratory, and quality systems**, adhering to GxP and FDA 21 CFR Part 11.
- Developed and maintained validation documentation, including **Validation Plans, Risk Assessments, IQ/OQ/PQ protocols**, and Traceability Matrices for new system implementations.
- Collaborated with Quality, IT, and Engineering teams to ensure system compliance with **GxP, FDA 21 CFR Part 11, and Annex 11** standards throughout the validation process.
- Investigated and assessed deviations, incidents, and change controls to determine their impact on system validation status and ensure continued compliance.
- Supported internal audits and regulatory inspections by providing comprehensive validation documentation and subject matter expertise, facilitating successful outcomes.
- Managed change control processes for system configuration updates and coordinated User Acceptance Testing (UAT) for integrated enterprise business systems.
- Containerized applications using **Docker** and deployed them to **AWS EC2** instances, ensuring consistency across development and production environments.

SKILLS

Validation & Compliance – Computer System Validation (CSV), GAMP 5, GxP, FDA 21 CFR Part 11, Annex 11, Data Integrity, cGMP, CAPEX Projects, Regulatory Inspections, Audits, Change Control, Deviation Management

System Validation Documentation – Validation Plans, Risk Assessments, IQ/OQ/PQ Protocols, Traceability Matrices, Validation Summary Reports, DQ

Technical Skills – Java, Spring Boot, Python, SQL, PostgreSQL, MySQL, Oracle, REST APIs, Docker, AWS (EC2, S3, Lambda, CloudWatch), Linux, Git, Jenkins

Data Analytics & BI – Power BI, Tableau, DAX, Power Query, R, pandas, NumPy, scikit-learn, Data Modelling, Data Warehousing

Project Management & Tools – Jira, Confluence, Agile, Scrum, Change Management, UAT Coordination

PROJECTS

GxP System Validation Framework

- Designed and implemented a standardized validation framework for GxP-regulated systems, incorporating templates for **IQ/OQ/PQ protocols** and risk assessments.
- Automated the generation of validation documentation drafts using **Python scripting**, reducing manual effort by approximately **30%** for routine system updates.
- Provided subject matter expertise during internal audits, successfully demonstrating compliance with **FDA 21 CFR Part 11** requirements for electronic records and signatures.

Automated Production Monitoring Dashboard

- Developed a **Power BI dashboard** to visualize key performance indicators for production systems, integrating data from Splunk and Dynatrace for real-time operational insights.
- Engineered **Python scripts** to extract and transform operational data, enabling automated reporting on system health and incident trends for management review.
- Configured alerts within the dashboard to notify operations teams of critical system deviations, reducing average response time to P1 incidents by **15%**.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
