PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Managed day-to-day system maintenance for a new **Workforce Management (WFM) IT system**, providing direct support to business users to ensure **system compliance** and operational continuity.
- Resolved end-user inquiries regarding the WFM system, focusing on delivering a high level of customer satisfaction and timely issue resolution, contributing to a **positive user adoption rate**.
- Collaborated with internal stakeholders across multiple European business units to gather and define precise **business requirements** for WFM system enhancements and reporting needs.
- Troubleshot and diagnosed system issues within the WFM platform, minimizing downtime and effectively escalating complex problems to higher-level support teams for resolution.
- Generated and analyzed comprehensive reports on workforce trends and system utilization, providing key insights that enabled **informed decision-making** for management.
- Developed and delivered training materials and sessions for end-users to ensure proficient utilization of the **Workforce Management System**, improving overall system efficiency.
- Supported the rollout of a new **WFM IT system** across Europe, coordinating with cross-functional teams to ensure successful implementation and user integration.

SKILLS

HRIS/Systems – Workforce Management System (WFM), HR Systems Support, System Compliance, Business Requirements

Languages – English, German

Tools & Technologies – Jira, Confluence, Splunk, Dynatrace, CloudWatch, EC2, S3, Lambda, Docker, Jenkins, Git, PostgreSQL, MySQL, Oracle

Analytics & Reporting – Report Generation, Data Analysis, Workforce Trends, Business Insights

Support & Operations – System Maintenance, Incident Response, Troubleshooting, End-User Training, SLA Management

PROJECTS

HRIS System Rollout & Support (HCL Technologies)

- Supported the implementation of a new HRIS module for an enterprise client, focusing on data migration and initial system configuration.
- Developed user guides and training documentation for HR personnel on new system functionalities, facilitating a smoother transition.
- Collaborated with business analysts to validate system outputs against defined requirements, ensuring data accuracy for reporting.

WFM System Training & Documentation (HCL Technologies)

- Created a comprehensive training program for end-users of a Workforce Management system, covering core features and troubleshooting steps.
- Designed interactive training modules that led to a **30% reduction** in Tier 1 support tickets related to common WFM system queries.
- Provided post-training support and feedback sessions to gather user input for system optimization.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021
