HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Developed and maintained **Java Spring Boot** REST APIs supporting core business operations, handling approximately 2,000 requests per minute.
- Implemented robust data validation and error handling for inbound financial transaction messages within a **Java**-based processing service.
- Engineered automated Python scripts to streamline data extraction and transformation tasks for operational reporting, reducing manual effort by **40%**.
- Managed and enhanced **SQL** queries and database schemas across PostgreSQL and Oracle for enterprise systems, supporting complex data integrity checks.
- Contributed to the design and implementation of a **Python**-driven ETL pipeline for aggregating data from disparate sources into a central data store.
- Containerized multiple Java Spring Boot applications using **Docker** and deployed them to a cloud environment, simplifying deployment and improving consistency.
- Analyzed production system logs using **Splunk** and **Dynatrace** to identify root causes of P1/P2 incidents, contributing to a **15%** reduction in Mean Time To Resolution (MTTR).

SKILLS

Programming Languages – Java, Python, SQL, R

Frameworks & Libraries – Spring Boot, pandas, NumPy, scikit-learn

Databases – PostgreSQL, MySQL, Oracle

Cloud & DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, Jenkins, Git

Tools & Platforms – Jira, Confluence, Splunk, Dynatrace, Power BI, Tableau

Methodologies – Agile, Scrum

PROJECTS

Enterprise Data Aggregation Pipeline (HCL Technologies)

- Designed and built a **Python**-based ETL pipeline to ingest and transform data from multiple enterprise systems, including ERP modules and operational databases.
- Implemented data quality checks and validation routines within the pipeline using **pandas** to ensure accuracy and consistency of aggregated financial data.
- Automated the scheduling and execution of the data pipeline using cron jobs on Linux, delivering consolidated reports on a daily basis.

Financial Operations Dashboard Enhancement (HCL Technologies)

- Developed new features and refined existing ones for a **Java Spring Boot** application that supported a financial services operations dashboard.
- Wrote complex **SQL** queries against PostgreSQL to extract and aggregate transaction data for real-time monitoring and alerting of payment processing workflows.
- Collaborated with business analysts to gather requirements for enhanced transaction monitoring capabilities, improving visibility into payment statuses for an 8-person operations team.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
