PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Managed end-to-end **IT support** for laboratory systems, including **Waters HPLC** and **Agilent HPLC** instruments, troubleshooting hardware and software issues to minimize downtime.
- Performed regular **access control reviews** and **audit trail checks** on laboratory systems, ensuring data integrity and adherence to **GMP compliance** standards.
- Coordinated the setup and deployment of newly acquired **lab systems**, collaborating with IT and Quality teams to facilitate smooth integration.
- Supported commissioning and qualification (**IQ/OQ/PQ**) activities for laboratory equipment, contributing to validation documentation and processes.
- Managed user access requests for laboratory systems, implementing and enforcing **internal procedures** for secure and compliant access.
- Contributed to the transition of internal resources into a new qualification group, assisting with **onboarding and training** on lab systems and procedures.
- Documented and maintained **system logs** and support procedures in accordance with **regulatory requirements** and internal quality standards.

SKILLS

IT Support & Operations – Lab Systems Support, GMP Compliance, Access Management, Audit Trails, System Commissioning, IQ/OQ/PQ, Regulatory Documentation, ITIL

Laboratory Equipment – Waters HPLC, Agilent HPLC, Bioassay Instrumentation, Plate Washers, Teacans, Wet Chemistry Equipment

Operating Systems & Scripting – Linux, Shell Scripting, Windows, macOS

Databases & Data Integrity – SQL, PostgreSQL, MySQL, Oracle, Data Integrity Principles

Cloud & Infrastructure – AWS, EC2, S3, Lambda, CloudWatch, Docker

Development & Automation – Java, Spring Boot, Python, REST APIs, Jenkins, Git

PROJECTS

Lab System Access Control Enhancement (HCL Technologies)

- Developed and implemented a Python-based automation script to streamline the process of requesting and approving user access for enterprise laboratory systems, reducing manual processing time by approximately **40%**.
- Integrated the access control workflow with the existing ticketing system, ensuring all access changes were logged and auditable, directly supporting **GMP compliance** requirements for financial-services client operations.
- Conducted periodic reviews of user access logs across multiple laboratory platforms, identifying and rectifying over **150** unauthorized access attempts within a 6-month period.

Operational Dashboard for Lab System Monitoring (HCL Technologies)

- Designed and built a **Power BI dashboard** to provide real-time operational status and alert summaries for critical laboratory equipment, including HPLC systems and bioassay instruments.
- Integrated data from various system logs and monitoring tools (e.g., Splunk, CloudWatch) into a central data model, enabling quick identification of performance bottlenecks and potential equipment failures.
- Collaborated with operations teams to define key performance indicators (KPIs) and alert thresholds, enhancing the visibility of system health and reducing the Mean Time To Detect (MTTD) for issues by an estimated **30%**.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
