PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Managed day-to-day system support and ticket resolution for the **Empower** platform, ensuring operational continuity for quality control teams.
- Built and maintained **Empower Master Projects**, including the configuration of custom fields and methods to meet specific quality assurance workflows.
- Acted as a subject matter expert for **Empower** during regulatory inspections, providing detailed system knowledge and supporting audit readiness.
- Supported the review and approval of quality investigations, CAPAs, and change controls, ensuring adherence to GxP compliance standards.
- Developed Python scripts to automate data extraction and reporting from enterprise systems, reducing manual effort by approximately **40%** for the operations team.
- Implemented Java Spring Boot REST APIs for cross-service data exchange, enhancing system integration and data flow efficiency across interconnected platforms.
- Containerized Java applications using **Docker** and deployed them to an AWS EC2 environment, improving deployment consistency and reducing setup time by **30%**.

SKILLS

Application Support – Empower, System Support, Ticket Resolution, Quality Investigations, CAPA, Change Control, GxP Compliance, Regulatory Inspections

Backend Development – Java, Spring Boot, REST APIs, Microservices, Hibernate, JPA, JUnit

Scripting & Automation – Python, Shell Scripting, ETL, Data Pipelines, Scheduled Reporting

Databases – SQL, PostgreSQL, MySQL, Oracle, Data Validation, Schema Changes

Cloud & DevOps – AWS, EC2, S3, Lambda, CloudWatch, Docker, Jenkins, Git

Observability & Monitoring – Splunk, Dynatrace, P1/P2 Incident Response, SLA Management

PROJECTS

Quality Control System Enhancement (HCL Technologies)

- Developed a Python-based automation suite to streamline data validation processes for enterprise systems, catching approximately **65%** of data integrity issues before production deployment.
- Engineered a **Java Spring Boot** microservice to integrate with an existing ERP module, facilitating real-time data synchronization and improving reporting accuracy by **15%**.
- Authored detailed technical documentation and user guides for system enhancements, aiding the operational teams in adopting new features and reducing support queries by **20%**.

Automated Production Monitoring Dashboard (HCL Technologies)

- Built a **Python** data pipeline to aggregate logs and metrics from production Java applications, feeding into an operational dashboard for real-time issue detection.
- Designed and implemented alert configurations within **Splunk** to flag critical system anomalies, reducing the mean time to detect for P1 incidents by over **35%**.
- Collaborated with operations teams to define key performance indicators and system health checks, ensuring comprehensive coverage of critical application workflows.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
