PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Provided technical leadership and architectural guidance across high-level and low-level design phases for a multi-phase technology programme, ensuring alignment with client standards and long-term technical feasibility.
- Acted as the primary technical authority within a complex client project team, navigating competing priorities and delivering decisive guidance on architecture and solution direction.
- Led participation in Agile ceremonies including sprint planning and reviews, embedding architectural considerations and ensuring delivery consistency across the team.
- Assessed complex technical challenges and evaluated solution options, delivering structured, evidence-based recommendations to senior stakeholders to mitigate architectural risks.
- Designed and implemented **Java Spring Boot** REST APIs for cross-service data exchange, incorporating request validation and circuit-breaker patterns to ensure system resilience.
- Managed **Hibernate** ORM configurations and optimized **JPA** queries for a core enterprise service, improving data retrieval performance by approximately **18%**.
- Containerized **Java** applications using **Docker** and deployed them to a **Kubernetes** cluster (EKS), configuring basic resource limits and readiness probes for predictable rollouts.

SKILLS

Architecture & Design – Solution Architecture, High-Level Design (HLD), Low-Level Design (LLD), Architecture Decision Records, Technical Leadership

Programming Languages – Java, Python, SQL

Frameworks & Libraries – Spring Boot, Hibernate, JPA, REST APIs, pandas, NumPy

Cloud & DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, Kubernetes, Jenkins, Git, CI/CD

Databases – PostgreSQL, MySQL, Oracle

Methodologies – Agile, Scrum, Sprint Planning, Sprint Reviews, Retrospectives

Tools & Technologies – Jira, Confluence, Splunk, Dynatrace

PROJECTS

Enterprise Java Service Modernization

- Re-architected a monolithic Java application into a set of microservices using **Spring Boot** and **Spring Cloud**, improving system modularity and enabling independent deployments.
- Implemented robust data persistence layers with **Hibernate** and **JPA**, optimizing database interactions across **PostgreSQL** and reducing query execution times by an average of **22%**.
- Developed comprehensive RESTful APIs for inter-service communication, ensuring adherence to design standards and incorporating detailed logging for operational visibility.

Automated Financial Transaction Reconciliation

- Developed Python scripts to automate the reconciliation of financial transaction data from multiple sources, processing approximately **15,000** records daily.
- Engineered data pipelines using **pandas** and **SQL** to extract, transform, and load transaction details into a staging database, facilitating faster report generation.
- Implemented automated validation checks within the Python scripts to flag discrepancies and ensure data integrity, reducing manual review effort by **30%**.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
