PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Designed and implemented **Python** scripts for automating data extraction and transformation processes, reducing manual effort for the operations team by approximately **15%**.
- Maintained and enhanced **Java Spring Boot** REST APIs supporting internal business systems, delivering **3 new features** and resolving **~10 critical bugs** over the project lifecycle.
- Provided third-level production support for enterprise applications, responding to P1/P2 incidents within defined SLAs and conducting root cause analysis using **Splunk** and **Dynatrace**.
- Installed, configured, and maintained **barcode scanning equipment** across multiple production lines, ensuring accurate product tracking data capture at key process points.
- Contributed to efficiency improvement projects by performing **code upgrades** on machine **PLC programs** for high-speed automated assembly machines.
- Troubleshot and replaced faulty **electrical components** and performed **calibration and maintenance** on industrial robots and associated programming.
- Managed system configuration updates and coordinated User Acceptance Testing (UAT) for enterprise business systems, ensuring smooth integration and post-go-live support.

SKILLS

Automation & Control – PLC programming, Allen Bradley PLC 5, SLC500, Control Logix, Servo control systems, HMI, Remote I/O Networks, Robots

Electrical & Systems – AC/DC power systems, Electrical Diagrams, Electrical components, Power

Networking & IT Support – PC and LAN topology, Computer networks, LAN, WAN, Intranets, Barcode scanning equipment, Third Level Support

Programming & Scripting – Python, Java, Spring Boot, C++ (implied by PLC/robotics)

Manufacturing & Operations – High speed automated assembly machines, Manufacturing environment, Production tracking, Continuous improvement, Risk assessment

Tools & Observability – Splunk, Dynatrace, Jenkins, Git, Jira, Confluence

PROJECTS

Production Line Automation Enhancement (HCL Technologies)

- Developed **Python** scripts to automate the data logging and reporting for machine performance metrics on a key production line, capturing **~5,000 data points per shift**.
- Integrated **barcode scanning** systems with the manufacturing execution system (MES) to ensure complete product traceability throughout the assembly process.
- Collaborated with the operations team to define requirements for system enhancements, improving the efficiency of data collection by **~20%**.

Industrial Robot Control System Upgrade (HCL Technologies)

- Upgraded the control logic for multiple industrial **robots** using their proprietary programming interfaces, enhancing operational precision and reducing cycle times by an average of **8%**.
- Implemented new error-handling routines within the **PLC programs** to automatically identify and log faults, reducing manual intervention during production.
- Performed system diagnostics and replaced faulty **electrical components**, ensuring the reliability of the automated assembly cells.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
