PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Managed and enhanced online product listings, pricing, and promotional campaigns across multiple e-commerce platforms, ensuring data accuracy for over **5,000 SKUs**.
- Analyzed customer behaviour, sales data, and marketplace performance using **Microsoft Excel** and internal analytics tools to identify opportunities for improving online revenue and conversion rates by an average of **15%**.
- Supported digital advertising and SEO initiatives by coordinating with external marketing agencies, contributing to a **20% increase** in website traffic over a six-month period.
- Collaborated with internal management and external digital teams to develop and execute e-commerce strategies, directly contributing to a **22% growth** in online sales year-over-year.
- Prepared comprehensive weekly and monthly performance reports detailing key e-commerce metrics, sales forecasts, and competitor activity for senior management.
- Coordinated closely with internal operations and inventory teams to ensure accurate product information and real-time stock availability across all online sales channels.
- Developed and maintained a comprehensive **Jira** project board for tracking e-commerce feature development and digital marketing campaign progress, ensuring timely delivery of key initiatives.

SKILLS

E-commerce Platforms – Online Sales Platforms, Product Listings, Pricing, Promotions, Conversion Rates

Digital Marketing – Digital Advertising, SEO, PPC, Paid Marketing, Traffic Generation

Analytics & Reporting – Sales Data Analysis, Customer Behaviour, Market Trends, Performance Reports, Sales Forecasting, Microsoft Excel

E-commerce Operations – Product Information Accuracy, Stock Availability, Internal Team Coordination, External Partner Collaboration

PROJECTS

E-Commerce Platform Enhancement for Automotive Client

- Developed a new product listing management system using **Python** and **Flask**, enabling faster updates and improving data consistency for over **4,000 automotive parts**.
- Implemented a data validation pipeline with **pandas** to automatically check product information against client specifications, reducing manual errors by approximately **30%**.
- Integrated the platform with an external inventory API, ensuring real-time stock level accuracy and reducing order fulfillment delays.

Digital Marketing Campaign Performance Dashboard

- Designed and built an interactive **Power BI** dashboard to visualize key digital marketing campaign metrics, including traffic sources, conversion rates, and ROI.
- Developed complex **DAX** measures to calculate campaign performance and attribute sales effectively, providing actionable insights to the marketing team.
- Automated data extraction and transformation using **Power Query** from multiple advertising platforms, streamlining the reporting process and saving an estimated **10 hours** per week.
