PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Administered and configured **Charles River IMS** production systems for financial services clients, ensuring high availability and optimal system performance.
- Managed **user administration and privileges** across multiple client instances of the IMS platform, adhering to strict security protocols.
- Provided **remote management and support** for client production IMS solutions, including application and database performance tuning.
- Executed **daily operational processing monitoring and support** for client systems, promptly addressing any issues to maintain service continuity.
- Performed **system availability checks and database software patching** for hosted and non-hosted client environments.
- Assisted clients with problem resolution and provided support for **Business Continuity/Disaster Recovery** planning and execution.
- Containerized **Java Spring Boot microservices** with Docker for deployment on AWS EC2 instances, improving application portability and simplifying deployment processes.

SKILLS

Core IMS Tools – Charles River IMS, Application Management, Parameter Configuration, User Administration, System Availability, Database Performance Tuning, Version Upgrades, Problem Support, Business Continuity, Disaster Recovery

Databases – MS SQL Server, Oracle, Sybase, PostgreSQL, MySQL

Operating Systems & Scripting – Linux, Shell Scripting, Python Scripting

Programming & APIs – Java, Spring Boot, REST APIs, XML

Cloud & DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, Jenkins, Git, CI/CD

Monitoring & Support Tools – Splunk, Dynatrace, Jira, Confluence

PROJECTS

Client IMS Production Environment Management

- Managed the end-to-end production environment for a financial services client's **Charles River IMS** deployment, ensuring **system availability** and performance.
- Executed regular **database patching and performance tuning** for the underlying **Oracle** database supporting the IMS application, reducing query latency by ~15%.
- Developed **Python scripts** to automate daily health checks and reporting for system administrators, decreasing manual effort by 4 hours per week.

Application Stability and Upgrade for Enterprise Client

- Supported a critical **Java Spring Boot** application serving financial data, performing root cause analysis for P1 incidents using **Splunk** logs.
- Coordinated and executed **system upgrades and configuration changes** for an enterprise client's operational platform, working closely with business analysts and operations teams.
- Implemented automated deployment pipelines using **Jenkins** and **Docker** for the Java application, reducing manual deployment steps and improving consistency.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
