PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Developed and executed project management plans for system and data-driven solutions, ensuring transparent communication across organisational levels.
- Designed and refined complex data queries by consolidating multiple sources within business intelligence platforms, developing logic for dashboards and analytics.
- Coordinated the development of visual workflows, rigorously validating metric definitions to enable accurate data interpretation and reduce time to insight.
- Performed routine systems analysis and data compliance reviews to enhance performance, ensure data integrity, and proactively diagnose and resolve issues.
- Monitored global performance metrics to detect outliers or adverse trends, escalating risks and evaluating process constraints.
- Trained and mentored associate-level team members to strengthen analytical and technical capabilities within the team.
- Established and maintained strong partnerships to support optimised systems integration, responding to management inquiries with thorough analysis and actionable recommendations.

SKILLS

Programming Languages – Python, SQL, DAX, VBA, Power Query M, C++

Business Intelligence – Power BI, Tableau

Data Management – Data Analysis, Data Visualisation, Data Modelling, Data Warehousing

Project Management – Project Management Plans, Stakeholder Coordination, Requirements Gathering

Cloud & Systems – Microsoft Power Apps, Excel

Methodologies – Agile

PROJECTS

Manufacturing Operations Data Analytics Platform

- Developed a comprehensive data analytics platform by consolidating data from multiple manufacturing systems using SQL and Power Query.
- Designed and built interactive dashboards in Power BI to visualise key performance indicators (KPIs) and operational metrics, enabling stakeholders to interpret data more effectively.
- Refined complex data queries and logic to support analytics across systems, contributing to a 15% reduction in time-to-insight for key operational reports.

System Integration & Performance Optimisation Initiative

- Coordinated with cross-functional teams to integrate disparate systems, ensuring alignment with strategic objectives and business goals.
- Performed systems analysis and data compliance reviews to enhance performance and ensure data integrity across interconnected platforms.
- Supported the development of visual workflows and validated metric definitions to enable stakeholders to accurately interpret data.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
