HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Managed the end-to-end release process for cloud-native infrastructure solutions, coordinating with development and operations teams to ensure timely and unified customer delivery.
- Streamlined installation and configuration procedures for enterprise customers, reducing average Proof-of-Concept timelines by approximately **30%** and improving initial deployment satisfaction.
- Implemented automation strategies for release workflows using **Python scripting** and **Jenkins pipelines**, enhancing overall release efficiency and reducing manual intervention by **45%**.
- Collaborated closely with development teams to build and maintain reliable software components, contributing to code reviews and ensuring adherence to quality standards within a **GitHub** version control environment.
- Developed and supported platform features using **Java Spring Boot**, including designing and implementing REST APIs for inter-service communication and data exchange.
- Containerized microservices using **Docker** and managed deployments within **Kubernetes** clusters (EKS), ensuring consistent environments across development, staging, and production.
- Participated in cross-functional team efforts to accelerate work delivery and ensure successful, synchronized releases for complex cloud-native products.

SKILLS

Cloud Native – Kubernetes, OpenShift, eBPF, Cilium, Cloud Native Infrastructure

CI/CD & DevOps – GitHub Actions, Jenkins, Git, CI/CD Pipelines, DevOps Practices

Programming & Scripting – Golang, Python, Java, Spring Boot, REST APIs

Containerization & Orchestration – Docker, Kubernetes, EKS

Release Management – Release Process Management, Installation Streamlining, Automation Strategies, Customer Experience

Observability & Networking – Networking, Security, Observability

PROJECTS

Cloud-Native Release Automation Platform (HCL Technologies)

- Engineered automated release pipelines using **Jenkins** and **Python** to manage deployments of Java Spring Boot applications to **AWS EC2** instances, reducing manual deployment time by **60%**.
- Developed shell scripts for log analysis and system health checks on **Linux** servers, integrated into the CI/CD process to provide early warnings for potential production issues.
- Managed code repositories and branching strategies using **Git**, ensuring code integrity and facilitating collaboration among a 5-person engineering team.

Kubernetes Deployment Automation Suite (HCL Technologies)

- Built a suite of **Python** scripts and **Bash** scripts to automate the deployment and configuration of microservices on **Kubernetes** clusters, significantly reducing setup time for new services.
- Containerized multiple Java applications using **Docker**, creating optimized images and managing their lifecycle within a shared registry.
- Implemented basic health check endpoints and monitoring configurations within the Kubernetes deployments, providing visibility into service status for operations teams.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
