HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Developed and maintained **Java Spring Boot** microservices, implementing RESTful APIs for internal financial data processing and ensuring robust error handling.
- Designed and implemented database schemas and complex SQL queries across **PostgreSQL** and **Oracle** for enterprise systems, supporting data migration and validation efforts.
- Authored **Python** scripts for automating ETL processes and generating scheduled operational reports, improving data delivery efficiency by approximately **15%**.
- Contributed to code reviews and sprint planning sessions, providing technical estimations and ensuring adherence to Agile methodologies for development tasks.
- Collaborated with cross-functional teams to troubleshoot and resolve production issues for enterprise applications, adhering to strict SLAs and managing P1/P2 incidents.
- Containerized **Java** applications using **Docker** and managed deployments on **AWS EC2** instances, streamlining the build and release cycle.
- Participated in change-control management for enterprise business systems, coordinating User Acceptance Testing and providing post-go-live support for integrated platforms.

SKILLS

Backend Development – Java, Spring Boot, Spring Framework, Hibernate, JPA, REST APIs, Microservices, JUnit, Maven, Gradle

Frontend Development – Angular, React

Databases – SQL, PostgreSQL, Oracle, MySQL

Cloud & DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, Jenkins, Git

Scripting & Automation – Python, Shell Scripting

Observability & Support – Splunk, Dynatrace, Jira, Confluence, Linux

PROJECTS

Enterprise Java Application Modernization

- Migrated legacy Java modules to a modern **Spring Boot** architecture, enhancing performance and maintainability for a core enterprise service.
- Implemented **Hibernate** for data persistence, optimizing object-relational mapping and reducing database query load by **20%**.
- Developed comprehensive unit tests using **JUnit** and Mockito, achieving over **85%** code coverage for critical service components.

Automated Financial Reporting System

- Developed a **Python**-based system to automate the generation of daily financial reconciliation reports, consolidating data from multiple sources.
- Engineered data extraction and transformation pipelines using **pandas** and **SQL**, processing approximately **15,000** transaction records per execution.
- Integrated the reporting system with an internal dashboarding tool, providing stakeholders with timely access to key operational metrics.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
