HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Developed and debugged **Java Spring Boot** applications, building RESTful APIs for inter-service communication and enhancing existing system functionalities.
- Implemented robust error handling and retry mechanisms within **Java** microservices, improving system resilience and reducing incident frequency by approximately **18%**.
- Designed and implemented database schema changes and optimized complex **SQL** queries across **PostgreSQL** and **Oracle** databases to support new application features.
- Managed the full lifecycle of proactive site changes and small automation projects, from initiation and design through to commissioning and final testing in a **GMP environment**.
- Provided daily support for on-site control systems, including **DeltaV Batch S88**, resolving production issues and ensuring operational continuity for manufacturing processes.
- Developed and delivered technical training sessions on **control system** operations and best practices for new team members, facilitating faster onboarding.
- Containerized applications using **Docker** and managed deployments on **AWS EC2** instances, ensuring consistent environments for development and production.

SKILLS

Automation & Control Systems – DeltaV Batch S88, PLC, Automation Support, Design, Commissioning, Testing, GMP Environment

Programming Languages – Java, Python, SQL

Frameworks & Libraries – Spring Boot, REST APIs, pandas, NumPy, scikit-learn

Cloud & DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, Jenkins, Git

Databases – PostgreSQL, MySQL, Oracle

Tools & Methodologies – Jira, Confluence, Agile, Scrum, Splunk, Dynatrace

PROJECTS

Industrial Automation System Enhancement (HCL Technologies)

- Engineered enhancements for an industrial automation system, focusing on the **DeltaV Batch S88** platform to improve process control logic and data logging capabilities.
- Developed **Python** scripts to automate data extraction and reporting from control system logs, reducing manual analysis time by an estimated **40%**.
- Collaborated with operations teams to define requirements for system upgrades, ensuring all changes met **GMP compliance** and operational efficiency goals.

Java-Based Production Support Dashboard (HCL Technologies)

- Developed a **Java Spring Boot** dashboard for monitoring production systems, aggregating alerts and status updates from various enterprise applications.
- Implemented **REST APIs** to fetch real-time operational data from backend services, enabling quicker incident diagnosis for the support team.
- Integrated with **SQL** databases (PostgreSQL) to store historical performance metrics and generate monthly operational reports.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
