HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Configured and tested **DeltaV** recipes, phase sequences, and control logic against design specifications for a major life sciences expansion project.
- Wrote functional specifications for equipment modules and HMI graphics, translating user requirements into actionable technical designs for automation systems.
- Executed **Installation Qualification (IQ)** and **Operational Qualification (OQ)** on-site for control systems, ensuring adherence to GMP standards.
- Developed Python scripts to automate data extraction and reporting from enterprise systems, reducing manual effort by approximately **30%**.
- Contributed to the development of Java Spring Boot REST APIs for cross-service data exchange, implementing robust error handling and validation.
- Managed production support for enterprise Java applications using **Splunk** and **Dynatrace**, resolving P1/P2 incidents to meet strict SLAs.
- Containerized Java applications using **Docker** and deployed them to AWS EC2 instances, improving deployment consistency and reducing setup time.

SKILLS

Automation – DeltaV, S88, Batch

Life Sciences Manufacturing – GMP, Pharmaceutical Manufacturing, Control Systems

Engineering & Testing – Functional Specifications, Control Logic, HMI Graphics, Installation Qualification (IQ), Operational Qualification (OQ), Test Specifications

Programming Languages – Java, Python, SQL

Frameworks & Technologies – Spring Boot, REST APIs, Docker, AWS (EC2, S3, Lambda, CloudWatch), Jenkins, Git, Linux

Tools – Splunk, Dynatrace, Jira, Confluence

PROJECTS

DeltaV Configuration and Qualification for Biologics Facility

- Configured and validated **DeltaV** batch recipes and phase logic for a new biologics manufacturing line, adhering to **S88** standards.
- Developed comprehensive test scripts for IQ and OQ phases, coordinating execution with client and vendor teams to ensure system integrity.
- Documented control system configurations and HMI graphics changes, maintaining clear audit trails for regulatory compliance within a **GMP** environment.

Python Automation for Enterprise Data Integration

- Designed and implemented Python ETL pipelines to extract and transform data from legacy ERP systems into a PostgreSQL data warehouse, enabling faster reporting.
- Automated the generation of weekly operational status reports using Python scripting and SQL queries, reducing manual reporting time by **~40%**.
- Developed RESTful APIs using Flask to serve aggregated data to downstream business intelligence tools, supporting approximately **500** daily requests.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
