PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Served as the primary **MES liaison** for Process and Operations teams, investigating and resolving **automation-related deviations** within **DeltaV** and **Syncade** environments.
- Managed the end-to-end closure of **CAPAs** stemming from MES investigations, coordinating with Quality and Engineering departments to implement corrective actions.
- Contributed to **change control processes** and risk assessments for automation and MES systems, ensuring alignment with **GMP** and site quality requirements.
- Developed and executed **Python scripts** to automate data extraction and reporting for operational dashboards, reducing manual effort by approximately **30%**.
- Performed structured **root cause analysis** on manufacturing system issues, identifying recurring problems and proposing solutions to enhance system reliability.
- Collaborated with cross-functional teams, including Process, Operations, and Quality, to simplify and communicate complex technical concepts related to automation and MES platforms.
- Executed routine **system checks** and **audit trail reviews** for MES platforms, maintaining data integrity and compliance with regulatory standards.

SKILLS

MES Platforms – DeltaV, Syncade

Automation & Control – Siemens PLC Systems, DCS

Regulatory & Quality – GMP, CAPA, Change Control, Data Integrity, GAMP, ANSI/ISA-88

Programming & Scripting – Python, Java, SQL

Cloud & DevOps – AWS, Docker, Jenkins, Git

Data & Analytics – Power BI, Tableau, DAX, Power Query, Splunk, Dynatrace

PROJECTS

DeltaV Automation & Deviation Resolution (HCL Technologies)

- Investigated and resolved complex automation deviations within a **DeltaV**-controlled pharmaceutical manufacturing environment, applying structured **root cause analysis**.
- Managed the lifecycle of **CAPAs** related to automation issues, working with process engineers to implement and validate corrective actions, ensuring adherence to **GMP**.
- Supported the development and review of **change controls** for automation system modifications, contributing to technical documentation and risk assessments.

MES System Enhancement & Reporting (HCL Technologies)

- Developed Python scripts to extract and process data from a **Syncade MES** system, generating automated reports that improved operational visibility for a financial services client.
- Designed and implemented interactive **Power BI dashboards** to visualize key performance indicators from MES data, enabling faster identification of production bottlenecks.
- Collaborated with operations teams to gather requirements for system enhancements, ensuring the MES platform met evolving production and compliance needs.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
