PROFESSIONAL EXPERIENCE — 3.5+ YEARS

Trust & Safety Agent — Accenture, Dublin, Ireland Jul 2026 – Present

- Review and action user-generated content and account reports against a large-scale online platform's **community standards** and policies.
- Investigate escalated abuse cases including harassment, hate speech, scams, and **inauthentic behaviour**.
- Document enforcement decisions and flag emerging abuse trends to inform policy updates and risk mitigation.
- Achieve and maintain high standards in quality audits, calibration, accuracy, and productivity targets for content review.

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Developed Java Spring Boot applications, implementing REST APIs for data validation and rule-based processing.
- Wrote Python scripts to automate data pipelines, supporting ETL processes and scheduled reporting for operational insights.
- Managed SQL databases (PostgreSQL, MySQL) for ad-hoc queries, data validation, and schema changes supporting application logic.
- Provided production support for enterprise applications, monitoring performance using Splunk and CloudWatch.
- Responded to P1/P2 incidents, managing SLAs and documenting resolution steps in runbooks.
- Collaborated with operations teams and business analysts on requirements gathering and post-implementation triage.
- Monitored transaction flows and operational alerting for payment messages, ensuring system stability.

SKILLS

Communication – Excellent English and Portuguese communication skills.

Business Development – Experience in business development and B2B partnerships/sales.

Customer Service – Provided customer service in digital/technology environments.

Tools – Expertise in Salesforce.com; Google Drive; Google’s Geo Data Upload Tool.

GIS – Knowledge of Geographic Information System tools.

Data Management – Researching and collating geographic data; managing data pipeline; documenting deliverables.

PROJECTS

Customer Churn Prediction (MSc Data Analytics)

- Developed predictive models using Python (pandas, scikit-learn) to identify customers at risk of churn.
- Analyzed user behavior data and performed exploratory data analysis to uncover key churn indicators.
- Visualized findings and model performance using Power BI dashboards for stakeholder review.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021
