PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Designed and implemented Syncade MES electronic batch records (EBRs) and master recipes, adhering to **ISA-88/ISA-95** standards for a GxP-regulated life science manufacturing environment.
- Developed and executed **CSV deliverables** per GAMP 5, including validation plans, URS, FS/DS risk assessments, and IQ/OQ/PQ protocols to ensure system compliance.
- Provided **L2/L3 production support** for Syncade MES, troubleshooting issues related to batch execution, system integrations, and user access, resolving approximately 15 critical incidents per quarter.
- Configured **user roles and security settings** within Syncade MES, managing master data and ensuring compliance with **21 CFR Part 11** and data integrity (ALCOA+) requirements.
- Authored and managed **change controls and deviations** for Syncade MES and integrated systems, performing impact assessments to maintain validated status and support regulatory audits.
- Collaborated with Manufacturing, Automation, IT, and QA teams to gather requirements for new product introductions and tech transfers, ensuring seamless system integration and process efficiency.
- Containerized the Syncade MES application components using **Docker** and deployed them to a managed **Kubernetes** cluster on AWS, improving deployment consistency and enabling faster rollbacks.

SKILLS

MES – Syncade, Electronic Batch Records (EBRs), Master Recipes, ISA-88, ISA-95

Validation & Compliance – CSV, GAMP 5, 21 CFR Part 11, EU Annex 11, Data Integrity, ALCOA+

System Integration – DeltaV, ERP (SAP), LIMS, Historians, REST APIs

Support & Operations – L2/L3 Support, Incident Management, Change Control, CAPA, SOPs, Audits

Cloud & Containerization – Docker, Kubernetes, AWS, EC2, S3

Development & Scripting – Java Spring Boot, Python, SQL, Jenkins, Git

PROJECTS

Syncade MES Integration and Validation Support

- Configured and validated Syncade MES EBRs for a new pharmaceutical product line, ensuring adherence to **21 CFR Part 11** and GxP guidelines.
- Developed Python scripts to automate data validation checks between Syncade MES and a connected **LIMS**, reducing manual error rates by approximately **18%**.
- Assisted in the preparation and execution of **IQ/OQ/PQ** protocols for system upgrades, documenting results and managing associated change controls.

Automated Batch Record Generation Service

- Designed and built a Java Spring Boot service to automate the generation of preliminary batch records from system logs, integrating with a PostgreSQL database.
- Implemented REST APIs for data ingestion and retrieval, facilitating seamless integration with existing manufacturing execution systems and reporting tools.
- Containerized the service using **Docker** and deployed to an **AWS EC2** instance, establishing a CI/CD pipeline with **Jenkins** for automated builds and deployments.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
