PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Provided advanced **desktop support** for **laptops and desktops**, resolving incidents and service requests for over 500 global users across multiple time zones.
- Executed **software installation**, upgrades, and patch deployments on end-user devices, ensuring compatibility and security posture for a fleet of 1,200+ machines.
- Documented technical solutions, known errors, and standard operating procedures in a structured **knowledge base**, contributing to a 15% reduction in repeat ticket volumes.
- Analyzed recurring incidents and problem trends, recommending process improvements that streamlined **incident closure** timelines by an average of 20%.
- Collaborated with **asset management** teams to support inventory accuracy and device lifecycle tracking, facilitating timely replacements and optimizing resource utilization.
- Maintained meticulous records of incidents, changes, and configurations in the **service management platform**, ensuring audit readiness and operational transparency.
- Provided clear guidance to users on **best practices for device usage** and secure working habits in a hybrid model, enhancing productivity and reducing preventable incidents by approximately 10%.

SKILLS

Desktop Support – Hardware troubleshooting, Operating systems, Collaboration tools, Enterprise applications, Remote support tools, Endpoint management platforms, Ticketing systems

Networking – IP addressing, DNS, VPN concepts

Security – Antivirus management, Encryption, Secure authentication methods

Operating Systems – Windows, macOS

Cloud & Automation – AWS (EC2, S3, Lambda, CloudWatch), Python scripting, Shell scripting

ITSM & Operations – Jira, Confluence, Jenkins, Splunk, Dynatrace, SLA management, Incident response, Change management

PROJECTS

Global Desktop Support Enhancement Initiative

- Streamlined troubleshooting processes for common **hardware and OS issues** across Windows and macOS environments, reducing average resolution time by 18%.
- Developed and deployed standardized **configuration hardening** scripts for new laptop deployments, ensuring adherence to organizational security policies and reducing security vulnerabilities by an estimated 25%.
- Mentored junior support staff on effective **remote support tool** usage and customer communication techniques, improving overall team response efficiency.

Endpoint Health Monitoring and Optimization

- Implemented and managed **endpoint health monitoring** using enterprise tools, proactively detecting and rectifying performance issues for a user base of over 800 employees.
- Coordinated with infrastructure and security teams to escalate complex **network connectivity** issues, ensuring accurate documentation and successful incident closure within agreed timelines.
- Contributed to the development of a centralized **knowledge base** for common technical solutions, improving self-service resolution rates by 12%.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
