PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Managed production incidents for enterprise applications using **Splunk** and **Dynatrace**, ensuring adherence to strict service level agreements and coordinating P1/P2 issue resolution.
- Automated data extraction and transformation tasks for scheduled reporting using **Python scripting**, processing approximately **15 TB** of data monthly to support business analysis.
- Developed and maintained REST APIs using **Java Spring Boot** for inter-service communication, contributing to the enhancement of an enterprise-level CRM platform.
- Collaborated with Sales, Finance, and Revenue Operations teams to review and process customer deal structures, including pricing and commercial terms, facilitating deal progression through the sales cycle.
- Analyzed deal data and sales pipeline trends to identify patterns and provide insights for improved forecasting accuracy and strategic decision-making.
- Supported sales teams by responding to inquiries and resolving commercial and operational challenges related to customer agreements and system functionalities.
- Containerized backend services using **Docker** and deployed them to **AWS EC2** instances, improving deployment consistency and enabling faster iteration cycles.

SKILLS

Programming Languages – Java, Python, SQL, R

Frameworks & Libraries – Spring Boot, pandas, NumPy, scikit-learn, Flask, FastAPI

Cloud Platforms – AWS (EC2, S3, Lambda, CloudWatch)

Databases – PostgreSQL, MySQL, Oracle

Tools & Technologies – Docker, Jenkins, Git, Jira, Confluence, Splunk, Dynatrace, Power BI, Tableau

Methodologies – Agile, Scrum

PROJECTS

Financial Operations Data Pipeline Automation

- Developed Python scripts to automate the extraction, transformation, and loading (ETL) of transaction data from PostgreSQL and Oracle databases for a financial operations dashboard.
- Engineered data validation routines to ensure data integrity, flagging and logging over **3,000** anomalous transaction records per quarter for reconciliation review.
- Integrated automated reporting outputs into a centralized dashboard, reducing manual reporting effort by approximately **20%** for the operations team.

Business Deal Analysis Dashboard

- Designed and built interactive dashboards using **Power BI** to visualize key deal metrics, including pricing, discount structures, and approval statuses, for sales and finance stakeholders.
- Developed complex **DAX measures** to calculate profitability indicators and identify trends in customer deal value over time.
- Conducted data modeling and prepared data using Power Query to support the creation of insightful reports that informed strategic commercial decisions.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
