PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Mapped and governed **first-party customer data flows** across digital properties for a consumer products company, ensuring **data integrity** between ingestion pipelines and activation layers.
- Translated strategic marketing objectives into scalable **technical specifications** and **audience segmentation models** for enterprise-wide CRM initiatives.
- Partnered with Global Digital Applications teams to implement data-driven **personalization logic** across web, app, and email touchpoints, directly impacting customer journey activation.
- Guided regional EMEA market teams on adopting centralized **MarTech platforms**, tailoring configurations to meet specific business requirements and local privacy regulations.
- Led regression testing and **data validation routines** across platform updates, protecting live user journeys and ensuring continuity for active marketing campaigns.
- Created and maintained comprehensive **runbooks** and **data flow diagrams**, delivering training sessions that increased internal platform adoption by **15%**.
- Developed and deployed **Python automation scripts** to streamline data ingestion processes, reducing manual effort by approximately **10 hours per week**.

SKILLS

Data & Analytics – SQL, Python, R, pandas, NumPy, scikit-learn, DAX, Power BI, Tableau, Data Warehousing, Statistical Methods, Exploratory Data Analysis, A/B Testing, Time-Series Analysis, Machine Learning Fundamentals

Marketing Technology – Marketing Automation, CRM Platforms, Customer Data Pipelines, Omni-Channel Personalization, Audience Segmentation, Customer Journey Activation, Digital Properties

Development & Integration – Java, Spring Boot, REST APIs, Webhooks, JSON Schemas, Event-Driven Architecture, HTML, CSS, JavaScript

Cloud & DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, Jenkins, CI/CD, Git, Linux

Project Management & Collaboration – Agile, Scrum, Kanban, Jira, Confluence, UAT, Change Management, Requirements Gathering, Stakeholder Management

PROJECTS

Customer Data Pipeline & Activation System

- Engineered a Python-based data pipeline to ingest and process **first-party customer data** from various digital touchpoints, ensuring high **data integrity**.
- Developed automated customer journey activation logic using **SQL** to segment audiences based on defined criteria for personalized marketing campaigns.
- Collaborated with marketing stakeholders to define data requirements and validate pipeline outputs, ensuring alignment with strategic objectives for **omni-channel personalization**.

MarTech Platform Data Governance & Reporting

- Implemented data validation routines and created comprehensive **runbooks** and **data dictionaries** to govern data flows within the MarTech ecosystem.
- Designed and deployed interactive **Power BI dashboards** to visualize key performance indicators related to data acquisition and campaign activation.
- Facilitated user acceptance testing (UAT) for platform updates, ensuring seamless integration and adherence to regional privacy regulations.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
