PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Supported regulatory inspections and compliance reviews for critical infrastructure, contributing to risk-based supervision frameworks under emerging regulations.
- Assisted in developing and maintaining regulatory policies and guidance documents, ensuring alignment with national and European standards for public administration.
- Prepared detailed reports, briefings, and recommendations for senior management and stakeholders regarding cybersecurity and technology-related risks.
- Coordinated stakeholder meetings and communications with regulated organisations and public bodies, providing clear guidance on regulatory positions.
- Contributed to the digitisation and continuous improvement of internal systems and processes within the public sector regulatory environment.
- Managed incident notifications and supported associated regulatory responses, ensuring timely and compliant handling of operational events.
- Developed and executed Python scripts to automate data extraction and reporting for operational dashboards, reducing manual processing time by **30%**.

SKILLS

Regulation & Governance – Regulatory Oversight, Compliance, Risk Management, Audit, Governance, Public Administration, Policy Development

Information Technology – Cybersecurity, Critical Infrastructure Resilience, Artificial Intelligence, IT Operations, System Improvement, Digitisation

Data Analysis & Reporting – Analytical Skills, Evidence-Based Decisions, Data Analysis, Reporting, Briefings, Recommendations

Stakeholder Management – Communication, Stakeholder Engagement, Relationship Building, Guidance, Coordination

Programming & Scripting – Python, Shell Scripting

Core Enterprise Technologies – Java, Spring Boot, SQL, PostgreSQL, AWS, Docker, Linux, Jenkins, Splunk, Dynatrace

PROJECTS

Critical Infrastructure Resilience Framework Development

- Contributed to the development of a risk-based regulatory framework for critical infrastructure resilience, focusing on cybersecurity and operational continuity.
- Researched and documented best practices for incident notification and response procedures within a public sector context.
- Assisted in drafting guidance materials for stakeholders on adopting new compliance standards for technology infrastructure.

Automated Operational Reporting System

- Engineered Python scripts to automate the extraction and aggregation of data from enterprise systems for daily operational reports.
- Developed SQL queries against PostgreSQL databases to retrieve transaction data for analysis and inclusion in compliance dashboards.
- Implemented scheduled jobs using cron for regular report generation, improving data availability for the operations team by **25%**.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
