PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Designed and implemented comprehensive **test strategies** for the Entitlement Domain, aligning with business priorities and ensuring robust risk coverage for millions of users.
- Reviewed and refined **requirements and acceptance criteria**, proactively identifying and eliminating ambiguities to guarantee thorough test coverage for self-service solutions.
- Authored detailed **test scenarios and cases**, ensuring clarity and traceability across complex feature sets and integration points.
- Drove the adoption of **API testing** using **Postman**, integrating automated checks into CI/CD pipelines to validate Entitlement Domain functionality.
- Coordinated **end-to-end testing** initiatives, including automated scenario execution and meticulous **test data management** across distributed Agile teams.
- Mentored and guided junior **QA Engineers** in distributed Agile teams, fostering consistent testing practices and promoting collaboration on the Entitlement Domain project.
- Containerized testing frameworks and deployment scripts using **Docker**, integrating them into **Jenkins** pipelines for automated execution within the CI/CD workflow.

SKILLS

Testing Frameworks & Tools – Selenium, Cucumber (BDD), FitNesse, Postman, JMeter, Jira

Programming Languages – Java, Python, SQL

API Testing – REST API Testing, Postman

CI/CD & Version Control – Git, Maven, Jenkins

Cloud & Containerization – AWS, Docker

Methodologies – Agile, Scrum, BDD

PROJECTS

Entitlement Domain API Test Automation Framework

- Developed a **Java-based test automation framework** for the Entitlement Domain, integrating **Selenium** for UI validation and **REST Assured** for API testing.
- Implemented **BDD scenarios using Cucumber** to define and execute test cases for self-service solutions, ensuring alignment with business requirements.
- Managed test data creation and cleanup processes within the framework to ensure reliable and repeatable test execution against various entitlement configurations.

CI/CD Pipeline Integration for QA Automation

- Integrated automated test suites into **Jenkins CI/CD pipelines**, enabling continuous testing and providing rapid feedback on code changes for the Entitlement Domain.
- Configured **Docker containers** to encapsulate testing environments, ensuring consistency and portability across development, staging, and production pipelines.
- Collaborated with development and operations teams to define quality gates within the pipeline, automating the go/no-go decision for releases based on test results.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
