PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Drove operational analysis and insight generation for key customer accounts, translating complex data into actionable recommendations for performance improvement.
- Developed and refined **KPIs** to enhance visibility of operational trends and highlight areas requiring immediate attention across critical supply chain functions.
- Managed key project and program roadmaps, tracking deliverables and cost-saving initiatives against agreed targets in collaboration with senior management.
- Supported cost-saving projects from initial analysis through to supplier engagement, customer approval, and implementation, contributing to efficiency gains.
- Identified opportunities to simplify processes and improve efficiency through better use of **data**, **automation**, and existing systems.
- Assisted in the ongoing development and **utilisation** of **Maximo demand forecasting** to strengthen materials planning across key customer programs.
- Containerised Java Spring Boot applications using **Docker** and deployed them to **AWS EC2** instances, ensuring reliable service delivery.

SKILLS

Supply Chain & Operations – Operational Analysis, Performance Improvement, Cost Reduction, Materials Planning, Process Improvement, Managed Inventory, Demand Forecasting, Continuous Improvement, Supplier Engagement

Reporting & Analytics – Operational Reporting, Dashboards, KPIs, Performance Information, Data Analysis, Excel, Power BI, Tableau, SQL

Systems & Technology – ERP Systems, CMMS Systems, Maximo, SAP, Automation, AI, Data Utilisation, AWS, Docker

Project Management – Project Roadmaps, Deliverables Tracking, Cost Saving Initiatives, Stakeholder Management, Prioritisation

Core Skills – Analytical Skills, Problem-Solving, Presentation Skills, Commercial Understanding, Organisational Skills, Independent Work, Collaboration

PROJECTS

Supply Chain Operations Dashboard Development

- Developed and maintained **Power BI dashboards** to visualize key operational metrics and KPIs for internal teams and enterprise customers, providing clear insights into supply chain performance.
- Extracted and transformed data from multiple sources using **SQL** and **Power Query**, creating robust data models to support accurate reporting and trend analysis.
- Collaborated with operations teams to gather requirements for reporting features, ensuring the dashboards met the needs of business stakeholders for improved decision-making.

ERP System Integration for Inventory Management

- Supported integration efforts between an **ERP system** and operational platforms, focusing on data flows related to inventory levels and material planning.
- Wrote **Python scripts** to automate data validation and reconciliation tasks between systems, reducing manual effort and improving data accuracy for inventory management.
- Contributed to change-control processes for system configuration updates, coordinating UAT and providing post-go-live support for interconnected systems.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
