PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Produced periodic financial forecasts and scenario-testing reports for multi-year housing delivery plans, under the direction of the Financial Planning Manager.
- Maintained and enhanced financial investment appraisal models, incorporating changes to reflect evolving project requirements and delivering associated reporting updates.
- Assisted in the budgeting process and performed cost-analysis reporting for value-for-money assessments on new housing initiatives, adhering to AHBRA financial standards.
- Developed and implemented new financial management system components, strengthening information flow between core finance functions and the FP&A; team.
- Contributed to the adoption of **AI tools** for financial planning, focusing on intelligent model design and enhancing the effectiveness of forecasting processes.
- Collaborated with cross-functional teams, including finance controllership and project managers, to ensure seamless integration of financial planning insights.
- Managed **change-control processes** for system configurations and coordinated User Acceptance Testing (UAT) for financial system updates.

SKILLS

Financial Planning & Analysis – Financial Modelling, Investment Appraisal, Budgeting, Cost Analysis, Value-for-Money Assessments, Scenario Testing, Financial Forecasting, Long-Term Financial Planning

Data Tools & BI – Power BI, Power Query, DAX, Tableau, Excel (Advanced)

Programming & Scripting – Python, SQL

Databases & Data Warehousing – PostgreSQL, MySQL, Oracle, Data Modelling, Data Warehousing

Cloud & Infrastructure – AWS (EC2, S3, Lambda, CloudWatch), Docker, Linux

Development Practices – REST APIs, Java Spring Boot, Git, Jenkins, Jira, Confluence, Agile/Scrum

PROJECTS

Housing Development Financial Modelling Suite

- Engineered a comprehensive financial modelling suite using **Python** and **SQL** to support long-term investment appraisals for co-operative housing projects.
- Developed interactive **Power BI** dashboards to visualise project financial health, forecast cash flows, and present key performance indicators to stakeholders.
- Integrated data from multiple sources via **Power Query**, performing ETL processes to ensure data integrity for accurate financial reporting and scenario analysis.

Cost Analysis Automation for Operational Efficiency

- Automated cost analysis reporting for operational expenditures using **Python** scripting, reducing manual data aggregation time by approximately **40%**.
- Designed and implemented database schemas in **PostgreSQL** to store and manage historical cost data, enabling efficient querying for trend analysis.
- Created **SQL** queries to extract and validate financial data for reconciliation workflows, ensuring accuracy across different reporting periods.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
