PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Prepared daily, weekly, and monthly revenue reports covering market share, ancillary revenue, and day-of-week performance using **Excel** and **SQL**.
- Collate and validate performance data against established processes, ensuring accurate and timely delivery of **Excel**-based reports for the UK portfolio.
- Completed weekly **rate parity checks** across all sales channels, investigating discrepancies and initiating follow-up with relevant teams.
- Challenged data inputs and conducted analytical reviews to enhance stakeholder understanding and trust in reported financial numbers.
- Monitored **revenue management system** performance, identifying and flagging opportunities for optimization in pricing, inventory, and business mix decisions.
- Developed Python scripts to automate the generation of recurring reports, reducing manual effort by approximately **15%** and improving consistency.
- Supported enterprise financial systems by performing change control management for configuration updates and coordinating User Acceptance Testing across interconnected platforms.

SKILLS

Reporting & Analysis – Revenue Reporting, Performance Analysis, Commercial Insight, Financial Reporting, Data Validation, Rate Parity Checks, Forecasting

Data Tools & Languages – SQL, Excel, VBA, Python, Power BI, Tableau, R

Business Systems – Opera PMS, ERP Systems, Revenue Management Systems

Methodologies – Agile, Scrum, Change Management

Cloud & Infrastructure – AWS, Docker, Linux, Jenkins

Programming Languages – Java, Spring Boot, Python

PROJECTS

Revenue Performance Dashboard (HCL Technologies)

- Developed a comprehensive revenue performance dashboard using **Power BI**, integrating data from multiple sources to provide actionable insights.
- Designed and implemented complex **DAX measures** and data models to track key performance indicators such as market share, ancillary revenue, and day-of-week performance.
- Automated data ingestion and transformation processes using **SQL** and **Power Query**, reducing reporting cycle time by **20%**.

Financial Operations Data Automation (HCL Technologies)

- Engineered **Python** scripts to automate the extraction, transformation, and loading (ETL) of transaction data from various financial systems.
- Implemented data validation checks and reconciliation workflows using **SQL** (PostgreSQL, Oracle) to ensure data accuracy and integrity for regulatory reporting.
- Scheduled and monitored automated data pipelines using **Linux cron jobs** and **Jenkins**, ensuring reliable delivery of processed data for downstream analysis.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
