PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Processed and reconciled commission income from multiple insurance providers, comparing actual receipts against expected figures and investigating variances for a portfolio of **~15 providers**.
- Developed and maintained **Power BI dashboards** and **Excel reports** to present management information on commission income, including detailed variance analysis for stakeholders.
- Liaised with insurance providers and internal finance teams to investigate and resolve outstanding or reconciling commission items, successfully closing out **an average of 20 queries per week**.
- Supported the annual budgeting and quarterly forecasting processes for commission income by providing historical data analysis and variance explanations.
- Implemented and maintained procedural controls within the commission deduction process to ensure accurate calculations against premium receipts.
- Contributed to the identification and implementation of process improvements, automating manual data collation for commission reports which reduced processing time by **~15%**.
- Maintained a central register of **commission agreements** and rates, ensuring accurate documentation and accessibility for audit purposes.

SKILLS

Finance & Accounting – Commission Processing, Reconciliations, Financial Administration, Variance Analysis, Budgeting, Forecasting, Financial Controls, Premium Processing.

Data Analysis & BI Tools – Power BI, Tableau, Microsoft Excel, DAX, Power Query, Data Modelling, Data Visualisation.

Programming & Scripting – Python, SQL.

Cloud & Infrastructure – AWS, EC2, S3, Lambda, CloudWatch, Docker.

Development Practices – Java, Spring Boot, REST APIs, Git, Jenkins, Agile, Scrum, Jira, Confluence.

PROJECTS

Automated Commission Reconciliation Dashboard

- Developed a **Power BI dashboard** to visualize commission income, track variances against provider agreements, and highlight discrepancies for review.
- Built **Python scripts** to automate the extraction and initial processing of raw commission data from various provider statements, reducing manual effort by an estimated **30%**.
- Designed and implemented **DAX measures** within Power BI for complex calculations, enabling trend analysis and performance comparison over multiple financial quarters.

Financial Operations Data Pipeline Enhancement

- Engineered a data pipeline using **Python** and **SQL** to ingest and transform transaction data from multiple sources, supporting reconciliation workflows.
- Optimized database queries against **PostgreSQL**, improving data retrieval times for reporting by an average of **20%**.
- Collaborated with internal operations teams to define data requirements and validate the accuracy of the processed financial information.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
