PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Managed and maintained **product data** within **Agile PLM**, ensuring accuracy and completeness of item master records for enterprise systems.
- Created and updated **Bills of Materials (BOMs)** and revisions based on approved engineering documentation, supporting product lifecycle management.
- Performed data entry for approved **product attributes**, classifications, and hierarchy values within Oracle Cloud Fusion Product Development, aligning with master data standards.
- Supported data cleansing and migration activities between **Oracle EBS** and **Oracle Cloud Fusion PDH**, contributing to data integrity across platforms.
- Executed basic completeness and accuracy checks against source information, recording completed transactions and updating status trackers for **product data administration**.
- Collaborated with engineering and operations teams to manage **controlled change processes**, ensuring adherence to established procedures for data updates and revisions.
- Containerized data administration utilities using **Docker** and deployed to an **AWS EC2** instance for streamlined batch processing, reducing manual execution time by 40%.

SKILLS

Product Data Management – Agile PLM, Oracle EBS, Oracle Cloud Fusion PDH, Item Master, BOMs, Product Attributes, Data Cleansing, Data Migration

Data Administration – Data Entry, Master Data Maintenance, Change Administration, Data Accuracy Checks, Status Tracking

Cloud & Containerization – AWS EC2, Docker

Databases & Systems – Oracle EBS, Oracle Cloud Fusion Product Development

Process Management – Controlled Change Management, Engineering Change Administration

PROJECTS

Enterprise Product Data Harmonization (HCL Technologies)

- Developed Python scripts to automate the extraction and validation of product data from legacy systems into a standardized format for migration to **Oracle EBS**.
- Assisted in the reconciliation of disparate product attribute sets across multiple databases, identifying and flagging over 1,500 data discrepancies.
- Documented data mapping rules and transformation logic, contributing to a comprehensive knowledge base for ongoing data governance efforts.

Agile PLM Integration for Change Control (HCL Technologies)

- Configured workflows within **Agile PLM** to manage engineering change requests (ECRs) and engineering change orders (ECOs), improving process visibility for a team of 15 engineers.
- Built a Java Spring Boot microservice to interface with Agile PLM APIs, automating the retrieval of approved BOM revisions for downstream ERP system updates.
- Generated periodic reports on change request status and cycle times using SQL queries against the Agile PLM database, highlighting bottlenecks in the approval process.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
