PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Participated in the setup of **reserving programs** for timely monthly account closing, adhering to project timelines.
- Assisted in the development and testing of new methodologies for calculating **technical reserves**, ensuring accuracy in financial modelling.
- Debugged and resolved issues within existing **reserving programs** and associated **VBA macros**, improving application stability.
- Managed and maintained the **Data Centralizer**, ensuring data integrity for all partners integrated into the Titan system.
- Developed new functionalities for the **Data Centralizer** to support evolving business requirements for live partners.
- Contributed to the **migration of reserving programs**, including the creation of new programs and communication with the Data Management team.
- Performed monthly controls for **Audit and Governance**, ensuring compliance with financial reporting standards and data accuracy.

SKILLS

Core Functions – Reserving Programs, Technical Reserves, Data Centralizer, Audit & Governance, Financial Reporting

Programming & Scripting – VBA Macros, Python, Java, SQL

Databases & Data Management – PostgreSQL, MySQL, Oracle, Data Modelling, Data Warehousing

Cloud & Infrastructure – AWS (EC2, S3, Lambda, CloudWatch), Docker, Linux

CI/CD & Tools – Jenkins, Git, Jira, Confluence

Analytics & BI – Power BI, Tableau, DAX, Power Query, R / RStudio

PROJECTS

Reserving Program Development & Migration

- Developed new Java Spring Boot applications to facilitate the creation of new reserving programs, integrating with existing financial data stores.
- Collaborated with Data Management teams to define and review program specifications, ensuring alignment with technical requirements for migration.
- Executed User Acceptance Testing (UAT) for newly developed and migrated reserving programs prior to production deployment, documenting all checks.

Data Centralizer Enhancement for Financial Partners

- Enhanced the Data Centralizer application by developing new functionalities in Python to accommodate diverse partner data inputs and reporting needs.
- Performed ad-hoc SQL queries and data validation on PostgreSQL and Oracle databases to identify and resolve discrepancies within the central data repository.
- Contributed to the maintenance of the Data Centralizer, ensuring accurate and timely processing of financial data for approximately 15 live partners.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
