PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Collaborated with business data owners and technology teams to establish and mature enterprise **data governance** practices, strengthening data ownership and accountability across federated operating models.
- Facilitated **governance councils**, stewardship forums, and working groups, tracking key governance initiatives, decisions, and action item remediation activities.
- Assisted in developing and maintaining **data governance policies**, standards, and operating models, ensuring alignment with privacy, retention, and risk management requirements.
- Partnered with business unit leads to identify and document **Data Owners** and Business Data Stewards, clarifying governance roles and accountability expectations.
- Supported the development and maintenance of **business glossaries**, data dictionaries, and governance metadata, coordinating collection and validation activities.
- Implemented enterprise **data quality policies**, standards, and metrics, facilitating the identification and prioritization of data quality issues with business stewards.
- Developed and produced **governance dashboards** and management reports, monitoring governance maturity and reporting on risks and adoption metrics to leadership.

SKILLS

Data Governance – Data Governance Framework, Data Ownership, Stewardship, Metadata Management, Data Catalog, Data Lineage, DAMA-DMBOK, Governance Policies, Data Quality.

Data Management Tools – Informatica Data Catalog, Informatica CDGC, Microsoft Purview, Collibra, Alation.

Data Analysis & Querying – SQL, Data Auditing, Data Analysis, Relational Databases, PostgreSQL, MySQL, Oracle.

Compliance & Risk – GDPR, CCPA, Privacy Laws, Records Retention, Risk Management, Compliance Audits.

Stakeholder Management & Communication – Stakeholder Engagement, Facilitation, Business Analysis, Change Management, Training Development, Presentation Skills, Verbal & Written Communication.

Methodologies & Practices – Agile, Scrum, Change Control Management, Data Classification, Data Security.

PROJECTS

Enterprise Data Governance Framework Implementation

- Assisted in the rollout of a new enterprise **data governance** framework, defining roles and responsibilities for Data Owners and Stewards across multiple business units.
- Contributed to the development of **data quality** standards and metrics, establishing procedures for issue identification, logging, and remediation tracking.
- Supported the integration of **metadata management** practices, coordinating with technical teams to populate business glossaries and data dictionaries within the governance platform.

Financial Services Data Quality & Compliance Initiative

- Analyzed transaction data using **SQL** to identify and validate data quality issues impacting operational reporting for a financial services dashboard.
- Supported the implementation of **GDPR**-aware data handling procedures, contributing to documentation for data retention and privacy compliance requirements.
- Facilitated cross-functional meetings between business analysts and operations teams to discuss and prioritize data remediation efforts for critical payment processing workflows.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021
