PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Provided first- and second-line technical support for enterprise users across **Windows** and **Linux** environments, resolving an average of 15 tickets daily.
- Installed, configured, and maintained **hardware**, **software**, and essential **network equipment** for a distributed user base.
- Developed and executed **manual test cases** against new feature releases, verifying bug fixes and conducting regression testing to ensure system stability.
- Monitored **cloud platform** performance (**AWS**) and assisted in resolving technical issues to maintain operational continuity.
- Supported **cybersecurity measures**, including timely software updates and system patching across critical infrastructure.
- Documented technical procedures, system configurations, and support activities, contributing to a centralized knowledge base.
- Participated in **IT projects**, including testing deployments and coordinating system upgrades for enterprise applications.

SKILLS

Operating Systems – Windows, Linux

Cloud Platforms – AWS, Azure

Networking – Network Equipment Configuration

Support & Maintenance – Hardware Installation, Software Configuration, System Patching, Technical Support

Testing & QA – Manual Test Case Development, Regression Testing

Security – Cybersecurity Principles

Documentation – Technical Procedures, System Configurations

PROJECTS

Enterprise Application Support System

- Developed a Python-based automation suite to streamline the deployment of software updates and system patches across a fleet of 500+ enterprise servers.
- Integrated the automation suite with **Jenkins** for scheduled execution and real-time status reporting, reducing manual deployment time by 40%.
- Authored comprehensive technical documentation and user guides for the support team, improving onboarding efficiency for new hires by approximately 20%.

Cloud Infrastructure Monitoring Dashboard

- Built and maintained a **Power BI** dashboard to visualize key performance indicators for cloud infrastructure hosted on **AWS** (EC2, S3, Lambda).
- Configured **CloudWatch** alarms and alerts to proactively identify and address potential system failures, improving incident response times by 15%.
- Extracted and transformed data from various AWS services using **Power Query** for integration into the reporting dashboard.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
