PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Mapped current and future-state business processes end-to-end for core SaaS operations, from CRM through billing and support, using **Miro** and **Lucid**.
- Gathered requirements from cross-functional stakeholders including Sales, Finance, and Support teams, translating them into clear system specifications for **Salesforce** and **Maxio**.
- Designed and led work-in-progress sessions and design workshops to validate requirements and shape solutions for system enhancements and process automation.
- Wrote comprehensive test cases and actively supported system, integration, and user acceptance testing (UAT) cycles for new feature releases.
- Configured business logic and user interfaces within **Salesforce** and other SaaS platforms, collaborating closely with the development team on implementation.
- Tracked changes and managed release cycles through **Jira**, ensuring smooth transitions from development to production environments.
- Applied **ITIL** service management practices to maintain process consistency, reliability, and facilitate continuous improvement across business systems.

SKILLS

Process Analysis & Documentation – Process Mapping, Requirements Gathering, System Specifications, Workflow Design, Miro, Lucid, Jira, Confluence

SaaS Platforms – Salesforce, Maxio, NetSuite, Freshdesk

Business Systems & Operations – Billing Processes, ERP Processes, CRM, Support Ticketing, Change Management, UAT

Service Management – ITIL, Incident Management, Release Management, Continuous Improvement

Testing & Quality Assurance – Test Case Writing, System Testing, Integration Testing, User Acceptance Testing (UAT)

PROJECTS

SaaS Billing System Process Optimisation (CyberSentriq)

- Mapped the end-to-end process flow from **Salesforce** CRM to **Maxio** billing and financial reporting, identifying 4 key areas of manual workarounds and delays.
- Designed and documented a streamlined future-state process for subscription renewals, reducing manual data entry by an estimated **35%** and improving data accuracy.
- Collaborated with the Finance and Sales operations teams to test and validate the proposed process changes within a staging environment before production release.

Salesforce Integration for Support Workflows (CyberSentriq)

- Analyzed and mapped existing support ticket handling procedures across **Salesforce** and **Freshdesk** to identify bottlenecks in cross-system communication.
- Developed detailed system specifications for a new integration that automated ticket escalation based on predefined criteria, aiming to reduce response times by **20%**.
- Supported the development team in configuring the integration logic and conducted user acceptance testing with the customer support team to ensure seamless adoption.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
