HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Mapped business requirements for systems including **Salesforce**, **Maxio**, and **NetSuite**, translating them into actionable user stories and functional specifications.
- Designed and documented system enhancement processes, conducting workshops with business stakeholders to gather detailed requirements for process automation.
- Managed the end-to-end testing cycle for system changes within **Jira**, coordinating User Acceptance Testing (UAT) with business units and tracking defect resolution.
- Developed and maintained process flow diagrams and system documentation, ensuring clarity and accuracy for the Business Systems team and end-users.
- Supported the implementation of new system configurations and updates, performing data validation and post-release support to ensure smooth transitions.
- Collaborated with cross-functional teams to identify opportunities for system optimization and process improvement, contributing to a more efficient operational workflow.
- Analyzed production system logs and performance metrics to identify root causes of issues and recommend solutions for enhanced system stability.

SKILLS

Business Systems – Salesforce, Maxio, NetSuite, Freshdesk, Jira, Confluence, Process Mapping, Requirements Gathering, UAT, Change Management

Data Analysis – SQL, Power BI, Tableau, DAX, Power Query, Data Modelling, Statistical Analysis

Programming – Python, Java, Spring Boot, REST APIs, SQL

Cloud – AWS (EC2, S3, Lambda, CloudWatch)

DevOps & Tools – Docker, Git, Jenkins, Splunk, Dynatrace

PROJECTS

Business Systems Process Improvement Initiative

- Analyzed and documented existing workflows for enterprise resource planning (ERP) systems, identifying bottlenecks and areas for efficiency gains.
- Developed detailed process maps using **Confluence** and **Jira** for a cross-departmental project, facilitating clear communication of requirements to development teams.
- Coordinated and supported User Acceptance Testing (UAT) for system configuration changes, gathering feedback from business analysts and operational teams to ensure alignment with objectives.

Financial Operations Dashboard Enhancement

- Designed and built interactive dashboards in **Power BI** to visualize key performance indicators for a financial services operations team, enabling better transaction monitoring.
- Developed complex **DAX** measures and optimized data models within **Power BI** to support real-time reporting on payment processing workflows.
- Extracted and transformed data using **Power Query** from multiple sources to populate the reporting dashboard, ensuring data integrity for operational decision-making.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
