PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Developed and maintained Java Spring Boot microservices, designing and implementing RESTful APIs for internal data exchange and processing.
- Engineered Python scripts to automate ETL processes for data ingestion and transformation, reducing manual processing time by approximately **40%** for batch reporting.
- Managed production support for enterprise applications, responding to P1/P2 incidents and performing root cause analysis using **Splunk** and **Dynatrace** to ensure SLA adherence.
- Designed and deployed Docker containers to AWS EC2 instances, managing application configurations and enabling consistent deployment across development and production environments.
- Collaborated with cross-functional teams to define technical requirements and estimate effort for new feature development within Agile/Scrum ceremonies.
- Implemented robust data validation and quality checks within SQL queries across **PostgreSQL** and **Oracle** databases, ensuring data integrity for downstream reporting.
- Contributed to CI/CD pipeline enhancements using **Jenkins** and Git, automating build, test, and deployment processes to improve release velocity.

SKILLS

Backend Development – Java, Spring Boot, REST APIs, Microservices, Python, Flask, FastAPI, Docker

Database Technologies – SQL, PostgreSQL, MySQL, Oracle, Data Warehousing

Cloud Platforms – AWS (EC2, S3, Lambda, CloudWatch)

DevOps & CI/CD – Jenkins, Git, Docker, Linux Shell Scripting

Data Analysis & BI – Power BI, Tableau, DAX, Power Query, R, pandas, NumPy, scikit-learn

Project Management & Support – Jira, Confluence, Agile, Scrum, Incident Response, SLA Management, Change Management

PROJECTS

Automated Agri-Procurement Data Pipeline

- Developed Python scripts to ingest and process grain intake data from multiple sources, automating reconciliation workflows and reducing manual data entry by **60%**.
- Designed and implemented data validation checks using SQL queries on a PostgreSQL database to ensure accuracy and completeness of harvest quality assurance records.
- Integrated with internal systems via REST APIs to facilitate data flow for operational reporting and stock reconciliation, supporting an 8-person operations team.

Interactive Milk Transport Logistics Dashboard

- Built an interactive dashboard using **Power BI** to visualize milk transport routes, timings, and volumes, enabling logistics managers to identify inefficiencies.
- Developed custom DAX measures and Power Query transformations to aggregate and analyze data from disparate sources, providing insights into fleet performance.
- Presented key performance indicators and actionable recommendations to logistics stakeholders, contributing to a **15%** improvement in route optimization analysis.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
