PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Analyzed core business performance metrics and trends, producing monthly and quarterly financial performance packs for senior management and contributing input to key business decisions.
- Completed commercial proposals by assessing the viability of business cases, including investment appraisals and financial projection analysis to support strategic decisions.
- Designed and developed financial models and forecasts to support the company's short and long-term strategic planning, enabling informed decision-making.
- Supported cross-functional teams in assessing business trends and identifying future issues, contributing to critical analysis of past company performance.
- Managed multiple tasks and prioritized effectively to achieve targets within a fast-paced environment, demonstrating attention to detail in complex data analysis.
- Collaborated with senior managers and their teams to build and maintain relationships, driving process improvements and promoting best practices for business scalability.
- Containerized and deployed analytical services using **Docker** on **AWS EC2** instances, ensuring efficient resource utilization and enabling scalable data processing.

SKILLS

Business Analysis & Finance – Financial Acumen, Business Trends Analysis, Commercial Proposals, Business Case Viability, Investment Appraisal, Financial Projections, Financial Analysis, Strategic Decisions, Financial Modelling, Forecasting, Performance Packs, Competitor Benchmarking, Process Improvement, Best Practices, Automation

BI & Data Analysis – Business Intelligence Tools, Complex Data Analysis, Data Visualization, Data Modelling, Power BI, Tableau, DAX

Programming & Scripting – Python, SQL, R

Cloud & DevOps – AWS, Docker, EC2

Methodologies – Agile, Scrum

PROJECTS

Financial Performance Analysis Dashboard

- Developed a **Power BI** dashboard to visualize key financial performance indicators, enabling senior management to track progress against targets.
- Integrated data from multiple sources using **Power Query**, performing data transformations and creating complex **DAX** measures for accurate reporting.
- Presented interactive reports and insights derived from the dashboard to business stakeholders, facilitating data-driven decision-making and strategic planning.

Python Automation for Business Reporting

- Engineered **Python** scripts to automate the generation of monthly financial reports, reducing manual effort by approximately **40%**.
- Developed **ETL** pipelines using **pandas** to extract, transform, and load data from various databases (**PostgreSQL**, **MySQL**) into a centralized reporting format.
- Scheduled automated report generation using cron jobs on a **Linux** environment, ensuring timely delivery of critical business intelligence.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
