PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Supported the enhancement and embedding of the **Risk and Control Self-Assessment (RCSA) framework** across business units, ensuring consistent risk and control assessment methodologies.
- Coordinated and supported the end-to-end RCSA engagement cycle, including stakeholder engagement, workshop facilitation, minute taking, and action tracking for risk initiatives.
- Performed quality assurance reviews of risk data, RCSA assessments, and supporting documentation, ensuring completeness, accuracy, and adherence to agreed standards.
- Provided day-to-day guidance to business units on the RCSA process, methodology, and control standards, facilitating clear communication and understanding.
- Maintained accurate records of risk assessments and control evaluations, ensuring clear traceability and evidence of stakeholder review and challenge on **control updates**.
- Applied strong project management discipline to risk initiatives, ensuring documentation quality, adherence to processes, and achievement of key milestones for a **standardised RCSA process**.
- Managed incident response and production support for enterprise applications, adhering to strict SLAs and performing root cause analysis on critical issues impacting **financial-services operations**.

SKILLS

Risk Management – Risk and Control Self-Assessment (RCSA), Operational Risk Management, Control Reviews, Risk Data Analysis, Stakeholder Engagement, Action Tracking, Documentation Management

Project Management – Project Management Discipline, Workstream Management, Milestone Achievement, Process Adherence, Documentation Quality, Timeline Management

Financial Services Tools – Excel, PowerPoint, Outlook, Word

Data Analysis – Data Sets, Data Analysis, Assessing Information, Evidence-Based Risk Assessments

Core Technologies – Java, Spring Boot, Python, SQL, PostgreSQL, AWS, Docker, Linux, Jenkins, Git, Jira, Confluence, Splunk, Dynatrace

PROJECTS

Financial Risk Assessment Framework Enhancement

- Designed and implemented enhancements to an enterprise **Risk and Control Self-Assessment (RCSA) framework**, improving data quality and reporting accuracy for key business units.
- Developed **Python scripts** to automate the consolidation of risk assessment data from multiple sources, reducing manual data entry effort by approximately 40%.
- Facilitated stakeholder workshops to gather requirements for framework improvements and ensure alignment on **control standards** and methodologies.

Production Support Dashboard for Financial Operations

- Built and maintained a **Java Spring Boot application** providing operational dashboards for monitoring transaction flows and alerting on payment processing issues.
- Integrated **Splunk and Dynatrace** data feeds into the dashboard to surface real-time alerts and historical performance metrics for over 5,000 daily transactions.
- Performed ad-hoc **SQL queries** against PostgreSQL databases to investigate and resolve discrepancies identified through the operational monitoring dashboards.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
