# HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

## PROFESSIONAL EXPERIENCE — 3.5 YEARS

**Software Engineer — HCL Technologies, Chennai, India** Sep 2021 – Jan 2025

- Supported the First Line of Defence in embedding policy obligations into business processes, focusing on sustainable operational adoption for regulatory and risk initiatives.
- Reviewed and enhanced procedures, control frameworks, and governance documentation to ensure effective implementation of policy requirements.
- Tracked key implementation activities, milestones, and dependencies for policy rollout across business units, escalating issues and maintaining evidence of adoption.
- Collaborated with stakeholders across the First, Second, and Third Lines of Defence to identify and resolve complex implementation issues and dependencies.
- Engaged with business and control stakeholders to translate policy requirements into practical, sustainable business processes and operational controls.
- Developed Python scripts to automate data extraction and reporting for control monitoring, reducing manual effort by approximately **15%**.
- Managed production support for enterprise applications, including incident response, root cause analysis, and SLA management using **Splunk** and **Dynatrace**.

## SKILLS

**Financial Services** – Risk Management, Policy Implementation, Regulatory Initiatives, Business Process Improvement, Controls Management

**Data Analysis & BI** – Power BI, Excel, Data Sets, Data Analysis, Data Visualisation

**Project Management** – Project Management, Implementation Activities, Milestones, Dependencies, Stakeholder Management

**Core Technologies** – Python, SQL, Java, Spring Boot, REST APIs, AWS, Docker, Linux, Git, Jenkins, Jira, Confluence

**Observability & Support** – Splunk, Dynatrace, CloudWatch, Incident Response, SLA Management

## PROJECTS

### Financial Controls Enhancement Project

- Automated the generation of control effectiveness reports using Python and SQL, consolidating data from multiple sources and reducing report generation time by **40%**.
- Developed interactive **Power BI** dashboards to visualize control metrics and track remediation progress for senior management and operational teams.
- Collaborated with business analysts to define requirements for new control procedures and supported UAT for system enhancements.

### Operational Data Pipeline Automation

- Engineered automated data pipelines using **Python** and **SQL** to ingest and transform transaction data for regulatory reporting and audit trails.
- Implemented data validation checks within the pipeline to ensure data integrity and accuracy, identifying and correcting ~5% of data anomalies before downstream processing.
- Managed the deployment and monitoring of Python scripts on AWS Lambda, ensuring reliable execution of scheduled data processing tasks.

## EDUCATION

**M.Sc. Data Analytics — National College of Ireland, Dublin** Feb 2026

**B.E. Computer Science — SNS College of Technology, Coimbatore, India** 2021

## CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
