PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Crafted clear and concise UI microcopy, including **field labels**, **tooltips**, and **error messages**, to guide users through online support resources.
- Collaborated with **UX researchers** to gather insights on user expectations and pain points, informing content design decisions for improved customer experiences.
- Maintained and updated existing **support content**, ensuring consistency, relevance, and alignment with strategic objectives across multiple platforms.
- Developed accurate and relevant **technical content** that resonated with millions of customers globally, aligning with business objectives and support experience definitions.
- Iterated on content solutions based on feedback from **cross-functional teams**, presenting rationale for design choices to stakeholders for review.
- Analyzed **page performance data** to identify areas for content improvement, informing content strategy and driving engagement with online support resources.
- Managed content lifecycles within **content management systems**, refining and iterating on published materials to maintain accuracy and user-friendliness.

SKILLS

UX Writing & Content Design – UI Microcopy, Field Labels, Tooltips, Error Messaging, Helper Text, Content Strategy, Content Hierarchy, Taxonomies, Metadata Standards

Technical Documentation – User Guides, Online Support Resources, Technical Content Development, Content Management Systems

Research & Analysis – UX Research, User Expectations, Pain Points, Page Performance Data Analysis, Customer Engagement

Collaboration & Communication – Cross-functional Teams, Stakeholder Collaboration, Content Review, Feedback Integration

Core Technologies – Information Architecture, Accessibility, Agile Methodologies

PROJECTS

Customer Support Portal Content Redesign

- Led the redesign of key sections within a customer support portal, focusing on clarity and ease of navigation for millions of users.
- Developed **UI microcopy** for interactive elements and help sections, reducing user confusion by an estimated **18%** based on post-launch feedback analysis.
- Collaborated with the product team to integrate new feature documentation and update existing guides, ensuring all content adhered to updated **information architecture** standards.

Technical Documentation for Enterprise Software

- Authored and maintained comprehensive technical documentation for an enterprise software suite, targeting both technical and non-technical users.
- Created **user guides** and troubleshooting articles, improving resolution times for common issues by approximately **15%** as reported by the support team.
- Implemented a new content model and metadata strategy to enhance searchability and content reuse across the documentation platform.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
