PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Supported client fund registration and maintenance across **multiple jurisdictions**, ensuring adherence to regulatory frameworks.
- Performed rigorous **quality control checks** on regulatory reports, verifying data accuracy against client submissions and industry standards.
- Coordinated document collection and reporting processes with **clients, regulatory authorities, and internal teams** to streamline operational workflows.
- Analyzed **ESG data and regulatory disclosures**, ensuring compliance with standards such as SFDR/EET and maintaining data integrity for reporting.
- Assisted in the design and maintenance of **fund structures and data management systems**, contributing to system improvements and operational efficiency.
- Participated in **continuous improvement initiatives**, researching and documenting regulatory changes to inform process enhancements and system updates.
- Managed **production support for enterprise Java applications** using Splunk and Dynatrace, responding to P1/P2 incidents and maintaining SLAs.

SKILLS

Data Management & Reporting – Fund Registration, Regulatory Reporting, UCITs, PRIIPs, MIFID, AIFMD, SFDR/EET, ESG Data Analysis, Data Quality Control, Data Accuracy, Data Management Systems.

Technical Skills – SQL, Python scripting, Java Spring Boot, REST APIs, AWS (EC2, S3, Lambda, CloudWatch), Docker, Linux, Git, Jenkins.

Operations & Support – Production Support, Incident Response, SLA Management, Change Management, Systems Integration, Operational Alerting, Transaction Monitoring.

Analytics & BI – Power BI, Tableau, DAX, Power Query, R/RStudio, pandas, NumPy, scikit-learn.

Methodologies – Agile, Scrum, Change Control Management, Root Cause Analysis.

PROJECTS

Financial Regulatory Reporting Dashboard Enhancement

- Developed **Python scripts** to automate the extraction and initial validation of regulatory data from disparate sources, reducing manual effort by an estimated **30%**.
- Designed and implemented **Power BI dashboards** to visualize key regulatory metrics and client-specific data points, improving oversight for a team of 5 analysts.
- Collaborated with business analysts to gather requirements for enhanced data reconciliation workflows, contributing to a more robust audit trail for financial transactions.

Enterprise Java Application Performance Monitoring

- Implemented **Java Spring Boot REST APIs** for enhanced data ingestion into an enterprise monitoring platform, supporting real-time data flow from critical services.
- Configured **Dynatrace and Splunk** alerts for key application performance indicators, enabling proactive identification of potential issues before they impacted service levels.
- Contributed to the root cause analysis of **production incidents** for Java/.NET applications, documenting findings to prevent recurrence and improve system stability.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
