PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Executed system testing and coordinated internal/external testing cycles for new functionalities, ensuring seamless go-live and operational readiness for a key strategic initiative.
- Served as an operational liaison between IT, Product Management, and operational units, and external clients, facilitating clear communication throughout project phases.
- Performed detailed customer and operational data setup and maintenance with a high degree of accuracy, directly supporting the strategic project's data integrity requirements.
- Assisted with ad-hoc operational tasks, issue tracking, and comprehensive documentation to support the ongoing strategic initiative in the funds industry.
- Managed multiple concurrent operational tasks and client-facing activities within a deadline-driven environment, adapting to evolving project needs.
- Developed and maintained operational runbooks and process documentation, contributing to knowledge transfer within the diverse and collaborative team.
- Analyzed system logs and operational data using **Splunk** and **CloudWatch** to identify root causes for ~15-20 recurring operational alerts per week.

SKILLS

Core Responsibilities – System Testing, Client Onboarding, Data Setup, Stakeholder Management, Operational Support, Documentation, Issue Tracking

Tools & Technologies – MS-Office, Jira, Confluence, Splunk, CloudWatch, Jenkins, Git

Programming Languages – Java, Python, SQL

Databases – PostgreSQL, MySQL, Oracle

Cloud Platforms – AWS (EC2, S3, Lambda)

Frameworks & Libraries – Spring Boot, pandas, NumPy, scikit-learn

PROJECTS

Investment Funds Operational Dashboard Development

- Developed a **Java Spring Boot** application to monitor transaction flows and operational alerts for a financial services client, improving visibility into failed payment messages.
- Implemented REST APIs for data ingestion and reporting, integrating with existing enterprise systems and ensuring robust data exchange across **PostgreSQL** and Oracle databases.
- Designed and documented system testing procedures and user guides for operational teams, contributing to improved process adherence and faster issue resolution.

Client Data Migration & Validation Tool

- Created a **Python** script to automate the validation and transformation of client data sets, reducing manual data entry errors by an estimated **30%** for an ERP integration project.
- Wrote SQL queries to verify data integrity and schema compliance against target system requirements, handling datasets with up to 50,000 records.
- Collaborated with business analysts to gather requirements for data mapping rules and provided support during User Acceptance Testing (UAT) phases.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
