PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Managed scheduled **factsheet generation batches**, monitoring completion against production timelines and performing first-line checks for data completeness and calculation accuracy.
- Investigated and resolved **production exceptions** related to data feeds and reporting templates, escalating complex platform issues to specialist teams for resolution.
- Configured **reporting templates** within the existing design by managing component visibility, sections, footnotes, and data point settings to meet client-specific requirements.
- Supported user acceptance and regression testing for **template and data changes**, documenting results and defects for defect resolution and system improvement.
- Published approved **factsheets to websites and data vendors**, retaining evidence of successful publication and coordinating with digital and distribution teams.
- Collaborated with fund accounting, performance, and portfolio teams to provide clear updates on **exceptions, risks, and dependencies** during the recurring production cycle.
- Implemented minor **branding and presentation updates** within defined standards, contributing to procedure updates and knowledge sharing following implemented changes.

SKILLS

Reporting & Data Analysis – Factsheet Production, Data Completeness Checks, Calculation Verification, Report Configuration, Data Mapping, Template Management, Branding Updates, User Acceptance Testing, Regression Testing, Investment Fund Data, NAV, Assets Under Management, Holdings, Performance

Data Manipulation & Tools – Microsoft Excel, Power Query, SQL, Data Feeds, Reference Data

Financial Services Operations – Fund Administration, Client Reporting, Regulatory Reporting, Production Batches, Operational Exceptions, Client Onboarding, Operational Changes

Programming & Scripting – Python, Java, Spring Boot, SQL

Cloud & Infrastructure – AWS (EC2, S3, Lambda, CloudWatch), Docker, Linux

Methodologies & Collaboration – Agile, Scrum, Change Management, Cross-functional Collaboration, Knowledge Sharing, Communication

PROJECTS

Automated Financial Reporting Dashboard (HCL Technologies)

- Developed Python scripts to automate the extraction and aggregation of **financial transaction data** from PostgreSQL and Oracle databases, reducing manual data compilation effort by approximately 40%.
- Built interactive **Power BI dashboards** to visualize key operational metrics, including transaction volumes, processing times, and exception rates, for business stakeholders.
- Implemented data validation checks using SQL queries to ensure **data completeness and accuracy** before loading into the reporting data model.

Client Data Feed Configuration Tool (HCL Technologies)

- Created a Java Spring Boot application to manage and configure **client data feeds** and reference data mappings used in automated reporting processes.
- Designed a RESTful API for the tool to allow integration with **external systems** and facilitate controlled updates to data configurations.
- Wrote unit tests using **JUnit and Mockito** to ensure the reliability and correctness of the data mapping logic and API endpoints.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
