PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Developed and maintained a structured AI roadmap, tracking progress, milestones, and value capture across **8 ongoing and 4 pipeline initiatives**, ensuring strategic alignment with senior management priorities.
- Conducted in-depth analyses of business processes, identifying opportunities for AI-driven automation and optimization, and built **AI-enabled target process maps** for key operational workflows.
- Prepared high-quality decision materials and **executive presentations** for management and Deutsche Börse Group governance forums, translating complex analyses into clear strategic recommendations.
- Collaborated with senior stakeholders across business and technology units to drive the implementation of AI programs, from definition to delivery, ensuring measurable value capture and sustainable outcomes.
- Explored AI-enablement possibilities within various business units, advising on **state-of-the-art techniques** and expertise to foster a culture of AI-driven innovation.
- Designed and implemented data extraction and transformation pipelines using **Python and SQL** to prepare datasets for analysis and model training, processing approximately **500 GB of raw data** weekly.
- Containerised and deployed **Java Spring Boot** microservices to **AWS EC2 instances** via **Jenkins CI/CD pipelines**, managing approximately 15 services supporting internal analytics platforms.

SKILLS

AI/ML – Generative AI, AI Strategy, AI Adoption, AI Roadmap, AI-enabled Processes, State-of-the-Art Techniques, Business Case Development

Data Analysis & BI – Business Process Analysis, Data Analysis, Process Optimization, Competitive Reporting, Data Visualization, Statistical Analysis, Excel, PowerPoint

Programming & Scripting – Python, SQL, Java, Spring Boot, REST APIs

Cloud & DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, Jenkins, CI/CD

Methodologies & Tools – Agile, Scrum, Jira, Confluence, MS Office Suite, MS Excel, MS PowerPoint

PROJECTS

AI Strategy & Business Case Development

- Developed a comprehensive AI strategy roadmap for a financial services operations dashboard, identifying **5 key areas for AI integration** and outlining implementation phases.
- Authored detailed business cases for AI adoption, including ROI projections and risk assessments, for initiatives targeting **transaction monitoring automation**.
- Created executive-level presentations and reports for senior management, detailing AI trends, competitive landscape, and strategic recommendations for the organization.

Data Pipeline Automation for Operational Analytics

- Engineered Python scripts to automate data extraction and transformation from PostgreSQL and Oracle databases, supporting the financial-services client's operational dashboard.
- Built and maintained ETL pipelines using **pandas** and **SQL**, processing approximately **3,200 transaction records** per hour to populate reporting tables.
- Implemented scheduled reporting jobs using cron on Linux servers, delivering daily summaries of key operational metrics to business analysts.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
