PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Administered and configured **NetSuite** core modules, including General Ledger and Accounts, managing user access, roles, and permissions across multiple subsidiaries to ensure system integrity.
- Automated **month-end close** processes by developing custom workflows and saved searches within NetSuite, reducing manual effort for the Finance team by an estimated 20% and minimizing data entry errors.
- Designed and implemented **custom records and fields** in NetSuite to support evolving business logic for revenue recognition and procure-to-pay workflows, directly translating Finance requirements into system capabilities.
- Collaborated with the internal engineering team to define and maintain **canonical data definitions** for financial entities, ensuring consistency and accuracy between NetSuite and integrated systems.
- Built and maintained **cross-system integrations** on a central, version-controlled platform, connecting NetSuite with FloQast and other financial tools to streamline data flow and enhance observability.
- Served as the dedicated technical partner to Finance and Accounting teams, translating their needs into system functionality and owning vendor onboarding and administration for financial systems.
- Explored and applied **AI tooling** to draft automation scripts and accelerate routine system configuration tasks, increasing personal productivity by approximately 15% during month-end close cycles.

SKILLS

Financial Systems – NetSuite, FloQast, ERP, General Ledger, Accounts Payable, Procure-to-Pay, Revenue Recognition, Month-End Close, Reconciliations.

Automation & Scripting – SuiteFlow, SuiteScript, SQL, Python, API-based automation, Low-code/iPaaS.

Cloud & Integration – AWS, Kubernetes, Event-driven architecture, Integration Platforms.

Data & Business Logic – Business Logic, Canonical Definitions, Data Expert, System Configuration, User Access, Roles, Permissions.

Methodologies – Agile, Scrum, Change Management, UAT.

Languages – English.

PROJECTS

NetSuite Automation for Finance Operations

- Developed and deployed **SuiteFlow automations** within NetSuite to streamline the procure-to-pay cycle, reducing manual data entry for invoice processing by 30%.
- Implemented **custom records and fields** to track vendor performance metrics, providing Finance with actionable insights for supplier management.
- Wrote **SQL queries** to validate data integrity between NetSuite and external vendor management systems, ensuring accurate reporting and audit trails.

Financial Systems Integration Platform

- Designed and implemented a core integration layer using **API-based automation** to connect NetSuite with an enterprise resource planning system.
- Managed **user access and permissions** for the integration platform, ensuring secure data exchange between systems.
- Collaborated with stakeholders to define **system capabilities** and data flow requirements, ensuring seamless cross-system operations.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
