HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Developed and configured **MES recipes** to align with corporate design standards, ensuring adherence to process requirements for high product quality and lean manufacturing.
- Performed **MES recipe authoring activities**, translating process requirements into system configurations to support facility goals in a high-throughput manufacturing environment.
- Participated in the **testing and computer system validation** of MES recipes and related configurations, contributing to the overall system integrity and compliance.
- Contributed to the creation of **MES deliverables**, including design documents and validation plans, supporting project milestones for system deployment.
- Managed **MES system administration** for third-party interfaces, including SAP, LIMS, and DeltaV, ensuring seamless data flow and system synchronization.
- Built and maintained **MES system syncade** configurations for equipment, material management, reports, and inventory management, enhancing operational visibility.
- Collaborated with cross-functional teams, including process engineers and IT, to gather requirements and implement changes for the **MES system**, demonstrating strong organizational and planning skills.

SKILLS

MES Systems – MES System Design, MES Recipe Authoring, MES System Administration, Syncade Build, Equipment Management, Material Management, Reports, Inventory Management

Development – Visual Basic, SQL Server, Scripting

Validation & Compliance – Computer System Validation, Design Documents, Testing

Manufacturing Concepts – High Product Quality, Lean Manufacturing, Process Requirements

Interfacing Systems – SAP, LIMS, DeltaV

Soft Skills – Communication, Collaboration, Organization, Planning, Problem Solving, Critical Thinking, Project Management, Teamwork, Flexibility

PROJECTS

MES Recipe Development for Pharmaceutical Production

- Authored and configured **MES recipes** for a pharmaceutical manufacturing client, translating complex batch process requirements into actionable system instructions.
- Developed and executed test cases for **MES recipe validation**, ensuring accuracy and compliance with regulatory standards and internal quality guidelines.
- Integrated MES recipes with upstream process control systems and downstream LIMS for end-to-end data capture and operational monitoring.

MES System Integration with SAP and LIMS

- Configured **MES system interfaces** to exchange data with SAP for material and inventory management, streamlining production workflows.
- Established data synchronization between the MES and LIMS systems, enabling real-time tracking of quality control parameters and sample management.
- Developed custom reports within the MES to provide operational insights on production efficiency and material flow.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
